

CITY OF EDGEWOOD

COUNCIL STUDY SESSION AGENDA

October 1, 2019 – 7:00 PM ♦ City Hall – 2224 104th Avenue East ♦ Edgewood, WA

1. CALL TO ORDER

Pledge of Allegiance & Roll Call

2. COUNCIL BUSINESS

- A.  **Review/Discussion** - RFP Selection Status – Planning, Zoning & Econ. Dev. Study (TC & MUR)
- B.  **Review/Discussion** - Interim Zoning Extension
- C.  **Review/Discussion** - Lake Chalet Property Acquisition
- D.  **Review/Discussion** - Litowitz Property Donation
- E.  **Review/Discussion** - 2020 Surface Water Rates
- F.  **Review/Discussion** - Comprehensive Plan Transportation Goals
- G.  **Review/Discussion** - Salary Commission Meeting Date Revision
- H.  **Review/Discussion** - Snow Plow
- I.  **Review/Discussion** (*no material*) – 2020 Projected Revenues

3. OTHER COUNCIL ITEMS

4. ADJOURN

Study Sessions are meetings for Council to review upcoming and pertinent business of the City, no action is taken by the City Council. Study Sessions are open to the public, but public input is reserved for the regular Council meetings

This meeting is accessible to persons with disabilities. For individuals who may require special accommodations, please contact City Hall at (253) 952.3299, 24 hours in advance.

City Of Edgewood Council Agenda Summary Sheet

SUBJECT: Planning and Zoning Study		Agenda Item #:		2A
		For Agenda of:		October 1, 2019
		Prepared by:		Darren Groth
ATTACHMENTS (list): ☒ Berk RFP Submittal				
Approval of Materials:				
Mayor, Daryl Eidinger	☐	Expenditure Required:	\$0	
Asst. City Administrator, Dave Gray	☐	Amount Budgeted:	\$0	
Interim City Attorney, Ann Marie J. Soto	☐	Timeline: 10/01 – Council Study Session Discussion 10/08 – Council Action		
City Clerk/HR Director, Rachel Pitzel	☒			
Community & Economic Development Director, Darren Groth	☒			
Public Works, Jeremy Metzler	☐			
Police Chief, Micah Lundborg	☐			
Fiscal Note/Consideration: N/A				
SUMMARY STATEMENT: On April 9, 2019, Council adopted Ordinance 19-0547, which adopted an emergency interim zoning ordinance on the acceptance of applications for new residential/multi-family development in the TC, C, MUR, and BP zones for a period of six months. Ordinance 19-0547 allows the City Council to consider whether the amount and type of residential/multi-family development in the TC, C, MUR, and BP zones should be modified. May 7th was the study session where the Council, Mayor, and staff were all present to discuss how the City will complete all of the “whereas” activities described in Ordinance 19-0547. On May 14, 2019, the City Council heard staff presentations and public testimony on the issue whether interim zoning ordinance No. 19-0547 should be terminated, modified or continued. The City Council voted to continue the interim zoning ordinance as adopted. During the next regular City Council meeting on May 28, 2019, the City Council adopted Resolution No. 19-0458, adopting findings of fact to support the continued maintenance of interim zoning Ordinance No. 19-0547. On June 20, 2019, the City Council held a Town Hall style open house meeting to review the public sentiment regarding growth and residential development in Edgewood in order to learn from citizens about the desired future of the community. In addition, City Council added on continued discussions for interim zoning Ordinance No. 19-0547 on each agenda during their June 11, June 18, June 25, July 2, July 9, July 16, and July 23, 2019 meetings. On July 23, 2019, City Council voted 6-1 to modify the interim zoning ordinance by limiting the geographic scope to the Mixed Use Residential (MUR) zone on the east side of Meridian Avenue and a portion of the Town Center (TC) zoning district, which is located only on the east side of Meridian Avenue south of 22nd Street East. City Council also provided direction to City staff regarding the next steps necessary under the interim ordinance. On July 30, 2019, City Council directed staff to prepare a request for proposals (RFP) to conduct a study of the Town Center (TC) and Mixed Use Residential (MUR) zoning districts, which will include a review of uses, appropriateness of commercial integration with residential project, where a [minimum] 3/1 development would be feasible in Edgewood, and if any additional modifications to the EMC are necessary. Since this RFP is being presented on August 20, 2019 to City Council for their additional direction, the subsequent study will likely commence in early September. On August 20, 2019, City Council reviewed the request for proposals (RFP) to conduct a study of the Town Center (TC) and Mixed Use Residential (MUR) zoning districts and recommended staff bring forward for a motion to approve publication at the next regular council meeting, which was approved for publication on August 27, 2019.				

The RFP resulted in four proposals that were received and score by City staff based on the scoring criteria identified in the RFP. The results of the staff's scoring is illustrated below. Out of 600 possible points, the submittal by Berk Consulting, Inc. was scored as the clear top candidate. If City Council agrees to move forward with the proposal, staff will begin final negotiations in anticipation of presenting a contract during the regular City Council meeting on October 8, 2019.

RECOMMENDED ACTION: Hold a discussion and provide staff direction to finalize a contract with Berk Consulting, Inc.

City of Edgewood

TOWN CENTER AND MIXED USE RESIDENTIAL PLANNING, ZONING, AND ECONOMIC DEVELOPMENT STUDY

PROPOSAL

SEPTEMBER 18, 2019

RE: Edgewood TC and MUR Planning, Zoning, and Economic Development Study | PROPOSAL

Dear Darren and the Consultant Selection Panel:

BERK Consulting, Inc. (BERK) is pleased to submit our proposal and qualifications to support the City of Edgewood with a Planning, Zoning, and Economic Development Study. Our expertise in market analysis, economic development, and land use planning make us ideally suited to support the City with this project.

As requested in the RFP, we have included the following information:

Statement of Interest and Availability. The BERK team has had the opportunity to work with Edgewood in the past, and counts Pierce County, Puyallup, Tacoma, and Lakewood as current clients. We are passionate about helping communities create their best futures. This study will support the City Planning Commission and staff with decision making related to growth and economic development, particularly in the Town Center. We confirm that the staff included in this proposal are available to complete this scope of work by the project deadline.

Insurance Coverage. BERK carries professional liability coverage of up to \$2,000,000 per occurrence and up to \$4,000,000 in aggregate. We would be happy to provide additional insurance information if requested.

Project Manager Contact Information. Andrew Bjorn, Ph.D., AICP will serve as Project Manager for the duration of this project. He can be reached at andrew@berkconsulting.com or 206-324-8760. Andrew will serve as both the day-to-day point of contact and the primary analyst and planner.

We look forward to discussing this project with you in detail. In the interim, more information about our firm, approach, team, and client satisfaction can be found on our website: www.berkconsulting.com.

Sincerely,

Brian Murphy, Principal
BERK Consulting, Inc.

Andrew Bjorn, Ph.D., AICP, Project Manager
BERK Consulting, Inc.

PROJECT APPROACH & SCOPE CONSIDERATION

PROJECT UNDERSTANDING

The City of Edgewood is a community of 11,390 residents (as of April 2019) located in Pierce County, Washington. Incorporated in 1996, the City has increased significantly in size over the past two decades, with much of this growth occurring within the past few years. Since 2016, the City's population has increased by about 5.4% per year on average, with almost 1,800 new residents coming into the community over the past three years.

There are concerns in the community about the effects of this rapid growth, ranging from the impacts on infrastructure and roadways to the changes in the scale and extent of development found in the city. One main element of concern is with ongoing development to support retail and service businesses. Commercial development since 2016 has been limited in commercial and mixed-use districts with only a coffee shop (Starbucks), a fast food restaurant (Taco Time), and a self-storage facility. This lack of development is despite dramatic recent increases in taxable retail sales, which experienced an 11% increase from 2017 to 2018 and an 18% increase from Q1 2018 to Q1 2019.

This situation with commercial development is a concern for the City for different reasons:

- If multifamily development “crowds out” local commercial growth, this would reduce the retail and service offerings that could be offered in the community.
- Without new commercial growth, residents may continue to visit surrounding communities to meet basic needs. This is inconvenient for local residents, given the city population could be large enough to support local shopping options.
- If limited options mean that Edgewood residents will go elsewhere for shopping, the benefits of new local retail spending will be received elsewhere, such as with the increases in City revenue from local sales tax receipts.

Edgewood adopted an emergency zoning ordinance in April 2019 to temporarily pause development in the City's Town Center (TC), Commercial (C), Mixed Use Residential (MUR), and Business Park (BP) zones. During this hiatus, there was ongoing dialogue in the community about the vision for future growth and residential development in Edgewood. The ordinance was modified in July 2019 to limit the scope of this ordinance to the MUR zone on the east side of Meridian Ave and a portion of the TC zoning district located on the east side of Meridian Ave south of 22nd St E. This ordinance is set to expire in October.

To guide future action on the area currently covered under the ordinance, the City is working to review the viability of commercial uses in the area, the appropriateness of mixed-use projects to meet ongoing commercial needs, and the need for additional changes to address other obstacles to new commercial development. The final product of this process is envisioned to be a report highlighting current market conditions, the viability of local commercial development (standalone and as part of mixed-use development), and potential policy directions and Municipal Code changes to promote new local-serving commercial development.

There have been several studies examining the viability and expected amount of commercial development in Edgewood since incorporation. This previous work will be leveraged through this process both to provide a retrospective on previous policy guidance and to help identify obstacles to future commercial development in the city.

WORKPLAN

We envision that the work of this project will be conducted over five tasks.

Task 1: Project Kick-off

At the initiation of the project, we will coordinate a kick-off meeting with City of Edgewood staff to discuss the project plan and schedule. This meeting will include:

- Discussing overall expectations for the project, including perspectives on needs for adjustment to the City's land use regulations
- Finalizing the project workplan, schedule, and communications protocols
- Reviewing project data needs, including possible interview subjects
- Confirming the content and format of deliverables

We will schedule regular phone meetings with City staff at this meeting to provide updates about the progress of the project. We will coordinate with the City to compile the required data needed to support the assessment, including electronic copies of all previous reports.

Task 2: Review of Existing Studies

For the initial step of the assessment, we will take a fresh and objective look at past work, evaluating and summarizing previous studies involving the Meridian Ave corridor, city-wide economic development in Edgewood, local development activity, and other related subjects. From a critical review and meta-analysis of these sources, we will demonstrate how earlier reports have aligned on major topics related to retail demand and commercial development that are relevant for this study. These findings will highlight important elements of the local development vision, indicate key findings from previous studies that should be critically evaluated as part of this work, and show how these findings have changed over time.

Our review will be focused on the following questions across the available sources:

- Have employment and development projections for Edgewood been consistent over time? How do they compare with historical and current trends with employment and development?
- What types of commercial space will likely be in demand in Edgewood?
- What are the typical spending patterns of Edgewood residents and customers of local businesses? What is the impact on local retail demand?
- What obstacles to new commercial development have been previously identified? What has been their likely impact in the Edgewood market?
- What recommendations were made to address identified issues overall? How were these recommendations implemented? Were they successful?

Compiled summaries of these findings will be provided by topic and integrated into the final report. The focus of these outputs will be on issues strongly related to new commercial and mixed-use development in the city.

Task 3: Research on Barriers to Development Potential

Drawing from the review and analysis of existing studies in Task 2, we will develop an assessment of the commercial development potential available in Edgewood, as well as barriers to development of these areas for commercial and mixed uses.

This task will incorporate:

- A review of the development vision from the City's Comprehensive Plan and other policy documents
- A description of major barriers identified as part of previous reports and studies, as well as previous actions taken by the City to address these barriers

- Interviews with 4–6 representatives of the development community (both local and regional) to identify and discuss current barriers to commercial and mixed-use development in Edgewood
- An assessment of local spending patterns by consumers in Edgewood, including the potential role of online shopping in reducing the demand for brick-and-mortar development
- An updated regional economic market analysis reviewing current trends in commercial development, local indicators of demand for commercial real estate, and projections of future demand for new space
- A review of regional commercial development capacity based on the most recent County Buildable Lands Report and supplemented with recent development data
- An evaluation of the current Edgewood Municipal Code to identify potential land use regulations that may impact the feasibility of commercial and mixed-use development

This assessment will check and update conclusions from previous studies by highlighting how earlier projections have aligned with current data trends, and confirming and reinforcing the conclusions from existing reports with updated information. The results will be integrated with the summaries of findings in Task 2 in the final report.

Task 4: Development of Recommendations

Based on the findings from Task 3 on potential barriers to commercial and mixed-use development, we will develop two distinct categories of recommendations for the final report: 1) targeted recommendations to encourage vertical mixed-use development in a specific geographic area; and 2) broader recommendations to the Comprehensive Plan and Municipal Code to reduce obstacles to commercial growth along the Meridian Ave corridor overall.

- **Targeted recommendations.** To examine the prescriptive changes to the Municipal Code necessary to support vertical mixed-use, we will develop prototypical pro forma models to evaluate and describe the general feasibility of retail-residential development in Edgewood. For this exercise, we will select 3–4 general locations based on the availability of developable land and ideal site and locational factors for mixed-use, and test different changes in regulations and incentives that would allow for the feasible development of these types of projects. We will use the outputs of these models to develop recommendations for specific changes to development and land use regulations that apply to these areas to encourage new commercial development for the city.
- **Broader recommendations.** We will also work to develop broader recommendations for changes to facilitate commercial and mixed-use development and remove obstacles to

new projects overall along the Meridian Ave corridor. These adjustments are intended to address the issues identified from previous studies in Task 2, as well as those described by the stakeholder interviews and other elements of the analysis conducted in Task 3. We will review the current Municipal Code and Comprehensive Plan to determine potential changes to address commercial space needs in Edgewood, with consideration of efforts indicated in previous studies.

A rationale and an implementation strategy for the recommendations will be incorporated as part of the final report. This will include a clear narrative that describes the reasoning for the changes, their intended effects, potential considerations during implementation, and a general timeline for actions.

Task 5: Project Report and Close-Out

For the final task in this project, we will develop a concise and readable report to summarize our research and findings for busy policymakers. This will include:

- A review of the objectives and intended outcomes of the study
- An overview of the current context in the City of Edgewood, including the status of the emergency zoning ordinance and recent development activity
- A compilation of findings from previous studies, categorized by topic area
- Summaries of the interviews conducted with local and regional developers
- An economic market analysis highlighting current trends and commercial real estate demand
- An evaluation of current barriers to commercial development in the city
- The methodology and results of the pro forma analysis of mixed-use development feasibility
- Recommended actions, including both targeted and general recommendations, and a proposed timeline

This report will be submitted for review to the City of Edgewood. Feedback received from this review will be incorporated in a round of edits to address any outstanding questions and additional information provided.

At the project close-out, we will coordinate with City staff to review the project as delivered, confirm the receipt of all project deliverables, and provide project data and materials for ongoing use.

PROJECT SCHEDULE

COST SUMMARY

We anticipate a total cost not to exceed **\$49,280**. We have based this initial cost proposal on our proposed scope of work and would be happy to further refine this estimate after conversation with the City.

	A. Bjorn Project Manager	B. Murphy Strategic Advisor	R. Nair Economic Development Lead	L. Johnson Analyst	Total Hours and Estimated Cost by Task

PROJECT TEAM

TEAM OVERVIEW

About BERK. BERK is an interdisciplinary consultancy integrating strategy, planning, and policy development; financial and economic analysis; and facilitation, design, and communications. Founded in 1988, our passion is working in the public interest, helping public and nonprofit agencies address complex challenges and position themselves for success.

Team Organization. The BERK team will be led by **Andrew Bjorn, Ph.D., AICP**. He has a focus in planning and land economics. He will serve as the day to day project manager and primary point of contact for this project. **Brian Murphy** is a Principal at BERK who specializes in economic development and strategic planning. He will provide strategic expertise to this project and have authority over the final project deliverables. **Radhika Nair** will serve as a Senior Analyst and **Lisa Johnson** will provide additional planning and analytic support.

More information about each individual is below and full resumes are included in Appendix A of this proposal.

STAFF QUALIFICATIONS

Andrew Bjorn, Ph.D., AICP (Project Manager) has a background in urban land economics and development planning. He has expertise in civil engineering and policy development, and has worked with communities and organizations across western Canada and the Pacific Northwest. Andrew has extensive experience in growth planning and management, and has worked with clients to address a range of complex urban and regional planning issues. Recent project experience includes market analysis for the cities of Bremerton, Lake Stevens, and Puyallup, and Pierce County.

Individual References:

- Tom Utterback, AICP, Planning Services Director, City of Puyallup, (253) 841-5502, tomu@ci.puyallup.wa.us
- Russell Wright, Community Development Director, City of Lake Stevens, (425) 622-9424, rwright@lakestevenswa.gov

Brian Murphy (Strategic Advisor) is a Principal at BERK. His expertise includes strategic and business planning, facilitation, economic development and market analysis, and management consulting. Brian is a skilled manager of complex analytic and planning projects with many moving pieces and nuanced policy choices. He has led economic development studies for the cities of Lakewood, Tumwater, Puyallup, Stanwood, Carnation, Woodinville, Normandy Park, and University Place.

Individual References:

- Becky Newton, Economic Development Manager, City of Lakewood, (253) 983-7738, BNewton@cityoflakewood.us
- Mark Hoppen, City Manager, City of Normandy Park, (206) 248-8246, mhoppen@normandyparkwa.gov

Radhika Nair (Economic Development Lead) has a background in urban planning and architecture. She focuses on neighborhood planning and design, policy development and the integration of technical analysis with community planning. She has experience working with local government to develop recommendations on complex issues. Radhika is currently working with the communities of Puyallup, Carnation, and Normandy Park on economic development strategies. She is also supporting the community engagement efforts around new library locations for the Pierce County Library System.

Individual References:

- Tom Utterback, AICP, Planning Services Director, City of Puyallup, (253) 841-5502, tomu@ci.puyallup.wa.us
- Andrea Spencer, Director of Community Development, City of Bremerton, (360) 473-5283, andrea.spencer@ci.bremerton.wa.us

Lisa Johnson (Planning & Analytic Support) specializes in urban planning and data analysis and has experience in outreach and facilitation with diverse groups of stakeholders. She has a background in real estate, economic development, and transit. Her experience includes work for both private and public sector agencies focused on building stronger communities. Prior to joining BERK, Lisa worked as a project manager for a development group in New York, NY and as a Community Development Advisor for the Peace Corps.

RELEVANT EXPERIENCE

City of Lake Stevens Market and Economic Evaluation of Lake Stevens Center and 20th St SE Subarea Plans (Lake Stevens, WA)

The City of Lake Stevens and its surrounding areas are slated to expand to a community of about 46,380 residents by 2035, accounting for about 6% of the total growth in Snohomish County. Lake Stevens Center and 20th Street SE Corridor are the two main districts for commercial activity in the city. The nature of development in these areas is distinctly different, with distinct opportunities for future growth. As part of our work, we provided policy guidance regarding the long-term management of commercial and residential growth in these two areas. As new growth in employment and economic activity in the city will be directed here, it is essential that land use regulations in these areas support the scale and format of commercial real estate that is currently in demand in the local market. We provided recommendations about adjustments in the existing Subarea Plans to account for discrepancies between local supply and demand, to reduce regulatory and planning constraints on meeting local needs for retail and service commercial uses.

- **Project team:** Andrew Bjorn (Project Manager)
- **Year completed:** Current
- **Client contact information:** PO Box 257 Lake Stevens, WA 98258
- **Project reference:** Russell Wright, Community Development Director, City of Lake Stevens, (425) 622-9424, rwright@lakestevenswa.gov
- **Project elements similar to scope of work:** Analysis of current market conditions, strategic planning to attract new commercial development, and action-oriented strategies to reduce barriers to new development in the community

City of Puyallup Downtown Economic Development Strategy 2019 (Puyallup, WA)

BERK developed an action-oriented, holistic, and locally supported Downtown Economic Development Plan that builds on the City's Comprehensive Plan vision, identifies the market trends and competitive advantages, and outlines short- and longer-term actions to leverage the City's resources, community partnerships and in-house expertise to drive economic growth and improve quality of life. BERK synthesized information and input from a variety of sources and conducted a robust stakeholder engagement process to come up with recommended actions. Engagement activities included interviews, discussion groups, a strategy summit and public open house and reached a diverse pool of stakeholders, including local property owners, businesses, community partners, real estate experts, and developers.

- **Project team:** Radhika Nair (Project Manager), Andrew Bjorn, Brian Murphy
- **Year completed:** 2019
- **Client contact information:** 333 S. Meridian Puyallup, WA 98371

- **Project Reference:** Tom Utterback, AICP, Planning Services Director, City of Puyallup, (253) 841-5502, tomu@ci.puyallup.wa.us
- **Project elements similar to scope of work:** Analysis of current market conditions, strategies to attract mixed-use development, and action-oriented strategies to attract new residential and commercial development.

City of Bremerton Eastside Employment Center Market Analysis, Redevelopment & Subarea Plan, Planned Action EIS (Bremerton, WA)

As part of an integrated Subarea Plan and EIS, BERK is working on an economic and market analysis for the Eastside Employment Center in Bremerton. Our work synthesizes the following quantitative and qualitative information:

- Overall trends in development in Bremerton and the region, expected demand across development types, construction costs, and identified opportunities for growth across Bremerton.
- A site market analysis evaluating the current site configuration, demand drivers for space after a key anchor of the area, the Harrison Medical Center, relocates. This includes local residential and commercial rents, and potential opportunities and challenges with site reuse/redevelopment.
- An entitlements analysis, that assesses the current uses on the site, possible alternative uses/development types under current City regulations, and potential alternative development that could be allowed through changes.
- Case studies highlighting comparable situations where the departure of a major anchor activity entailed a realignment of local uses and potential redevelopment to accommodate new types of uses.

The analysis has produced initial strategic recommendations, including possible actions that can help to address regulatory, market, and financial limitations, and attract capital investment and achieve potential development visions for the site.

- **Project team:** Radhika Nair (Daily Project Manager and Plan Lead), Andrew Bjorn
- **Year completed:** Ongoing
- **Client contact information:** 345 6th. Street Suite 600 Bremerton, WA 98337
- **Project reference:** Andrea Spencer, Director of Community Development, City of Bremerton, (360) 473-5283, andrea.spencer@ci.bremerton.wa.us
- **Project elements similar to scope of work:** Market analysis and synthesis, stakeholder engagement, and report development

City of Normandy Park Economic Development Element 2018 (Normandy Park, WA)

For the City of Normandy Park, BERK prepared an Economic Development Element of the Comprehensive Plan. BERK worked closely with city staff, and an Economic Development Committee (EDC), to develop a vision and implementing goals and policies for economic development. As part of the analytic foundation for the vision, goals and policies, BERK evaluated local market and economic trends, key business sectors, opportunities for growth, and the challenges facing the city's economy. This quantitative analysis was supplemented with interviews with local property owners, and real estate experts. A key focus of the work was on planning for emerging land uses, such as lodging and/or co-working, that could fit in with the city's character, leverage its competitive advantages and generate tax revenue. BERK also developed an action-oriented matrix to guide the EDC as it works to implement the Element's goals and policies.

- **Project team:** Radhika Nair (Project Manager) Andrew Bjorn, Brian Murphy
- **Year completed:** Ongoing
- **Client contact information:** 801 SW 174th St. Normandy Park, WA 98166
- **Project Reference:** Mark Hoppen, City Manager, City of Normandy Park, (206) 248-8246, mhoppen@normandyparkwa.gov
- **Project elements similar to scope of work:** Assessed local conditions, viability of lodging development, and potential policy changes to promote economic growth.

City of Lakewood Central Business District Assessment (Lakewood, WA)

BERK helped the City of Lakewood understand the market potential for the City's Central Business District in preparation for doing a full subarea master plan. The purpose of this project was to ascertain a reasonable range of potential futures, including revitalization of the Lakewood Towne Center—a suburban style shopping center. BERK assessed market opportunities for retail, restaurant, and services, as well as residential development and community uses. BERK conducted a detailed market study of the area, assessed the CBD's public spaces, and researched comparable redevelopment stories from other communities. The final product was used to inform a subsequent subarea planning project that delved further into how the City will facilitate desirable investment in the area. The subarea plan for Towne Center was developed by the BERK team and included community engagement, strategy development, and land use planning expertise to revitalize this neighborhood.

- **Project team:** Brian Murphy (Project Manager)
- **Year completed:** 2017
- **Client contact information:** 6000 Main St. SW Lakewood, WA 98499
- **Project Reference:** Becky Newton, Economic Development Manager, City of Lakewood, (253) 983-7738, BNewton@cityoflakewood.us
- **Project elements similar to scope of work:** Assessed retail market opportunities in advance of larger, focused economic development and planning effort.

Andrew has a background in urban land economics and development planning. He has expertise in civil engineering and policy development, and has worked with communities and organizations across Western Canada and the Pacific Northwest. Andrew has extensive experience in growth planning and management, and has worked with clients to address a range of complex urban and regional planning issues.

Andrew is currently working with the City of Lake Stevens on an economic evaluation of two subarea planning efforts which were completed more than seven years prior. He is also working with the City of Bremerton on an economic impact study of the pending relocation of a major employment center.

Prior to joining BERK, Andrew served as a Senior Planner/Economist for a consulting firm in Calgary, Alberta working on regional planning and policy development. He has a Ph.D. in Urban Design and Planning from the University of Washington. Andrew is a certified Planner in the State of Washington.

Brian's expertise includes strategic and business planning, facilitation, economic development and market analysis, and management consulting. Brian has led economic development strategies for communities throughout the region, including the cities of Lakewood, Tumwater, Puyallup, Bonney Lake, Stanwood, Carnation, Woodinville, Normandy Park, and University Place. Currently, Brian is working with the City of Normandy Park on a hotel siting study related to the recent update to the Economic Development Element.

Education & Certification

- M.B.A., University of Washington, selected for Beta Gamma Sigma Honor Society
- B.A., Politics, University of California at Santa Cruz, graduated with honors

Brian joined the firm in 2002 and is a skilled manager of complex analytic and planning projects with many moving pieces and nuanced policy choices. Brian received a BA with Honors from UC Santa Cruz and an M.B.A. from the University of Washington. He is a 2003 graduate of Leadership Tomorrow.

City Of Edgewood Council Agenda Summary Sheet

SUBJECT: Interim Zoning Extension		Agenda Item #:		2B
		For Agenda of:		October 1, 2019
		Prepared by:		Darren Groth
ATTACHMENTS (list): ☒ Berk RFP Submittal				
Approval of Materials:				
Mayor, Daryl Eiding	☐	Expenditure Required:	\$0	
Asst. City Administrator, Dave Gray	☐	Amount Budgeted:	\$0	
Interim City Attorney, Ann Marie J. Soto	☐	Timeline: Continuation of the 6-month period for the prohibition on accepting and processing applications for new residential/multi-family development certain zones.		
City Clerk/HR Director, Rachel Pitzel	☒			
Community & Economic Development Director, Darren Groth	☒			
Public Works, Jeremy Metzler	☐			
Police Chief, Micah Lundborg	☐			
Fiscal Note/Consideration: N/A				
SUMMARY STATEMENT: On April 9, 2019, Council adopted Ordinance 19-0547, which adopted an emergency interim zoning ordinance on the acceptance of applications for new residential/multi-family development in the TC, C, MUR, and BP zones for a period of six months. Ordinance 19-0547 allows the City Council to consider whether the amount and type of residential/multi-family development in the TC, C, MUR, and BP zones should be modified. May 7th was the study session where the Council, Mayor, and staff were all present to discuss how the City will complete all of the “whereas” activities described in Ordinance 19-0547. On May 14, 2019, the City Council heard staff presentations and public testimony on the issue whether interim zoning ordinance No. 19-0547 should be terminated, modified or continued. The City Council voted to continue the interim zoning ordinance as adopted. During the next regular City Council meeting on May 28, 2019, the City Council adopted Resolution No. 19-0458, adopting findings of fact to support the continued maintenance of interim zoning Ordinance No. 19-0547. On June 20, 2019, the City Council held a Town Hall style open house meeting to review the public sentiment regarding growth and residential development in Edgewood in order to learn from citizens about the desired future of the community. In addition, City Council added on continued discussions for interim zoning Ordinance No. 19-0547 on each agenda during their June 11, June 18, June 25, July 2, July 9, July 16, and July 23, 2019 meetings. On July 23, 2019, City Council voted 6-1 to modify the interim zoning ordinance by limiting the geographic scope to the Mixed Use Residential (MUR) zone on the east side of Meridian Avenue and a portion of the Town Center (TC) zoning district, which is located only on the east side of Meridian Avenue south of 22nd Street East. City Council also provided direction to City staff regarding the next steps necessary under the interim ordinance. On July 30, 2019, City Council directed staff to prepare a request for proposals (RFP) to conduct a study of the Town Center (TC) and Mixed Use Residential (MUR) zoning districts, which will include a review of uses, appropriateness of commercial integration with residential project, where a [minimum] 3/1 development would be feasible in Edgewood, and if any additional modifications to the EMC are necessary. Since this RFP is being presented on August 20, 2019 to City Council for their additional direction, the subsequent study will likely commence in early September. On August 20, 2019, City Council reviewed the request for proposals (RFP) to conduct a study of the Town Center (TC) and Mixed Use Residential (MUR) zoning districts and recommended staff bring forward for a motion to approve publication at the next regular council meeting, which was approved for publication on August 27, 2019.				

The RFP resulted in four proposals that were received and score by City staff based on the scoring criteria identified in the RFP. Based on the timeline identified in the highest scored proposal, staff recommends extending the interim zoning ordinance six months.

RECOMMENDED ACTION: Discuss to extend the Interim Zoning Ordinance for six months until the Town Center and Mixed Use Residential Planning Study is completed.

ALTERNATIVES TO RECOMMENDED ACTION:

- 1) Move to the next available council meeting for action
- 2) Forward to Study Session for further review

City Of Edgewood Council Agenda Summary Sheet

SUBJECT: Lake Chalet Property Acquisition	Agenda Item #:		2C
	For Agenda of:		10/1/2019
	Prepared by:		Jeremy Metzler
ATTACHMENTS (list): ☒ Letter to Ms. Palzer dated October 10, 2018 ☒ AFN 8312200244 – Vesting Deed for ownership of Lake Chalet ☒ AFN 9109300789 – Deed transferring Lot 1 of Edgewood Dale from Palzer to Shumate ☒ Quit Claim Deed from Palzer to City			
Approval of Materials:			
Mayor, Daryl Eiding	☐	Expenditure Required:	\$425.71
Asst. City Administrator, Dave Gray	☐	Amount Budgeted:	\$0
Interim City Attorney, Ann Marie J. Soto	☐	Timeline: Study Session Discussion 10/1/2019 Regular Council Meeting Action 10/8/2019	
City Clerk/HR Director, Rachel Pitzel	☐		
Community & Economic Development Director, Darren Groth	☐		
Public Works, Jeremy Metzler	☒		
Police Chief, Micah Lundborg	☐		
Fiscal Note/Consideration: The cost of the Title Report was \$225.71. Ms. Palzer has committed to execute a Quit Claim Deed, transferring any interest she has in the subject Lake Chalet property, for a lump sum of \$200.			
SUMMARY STATEMENT: While updating the City's Surface Water Management Plan in 2018, the need was identified to develop flood control programs in the closed depression basins. Lake Chalet is considered a closed depression basin, but historically it has discharged to Simon's Creek, the head of which is located to the west. In light of this, a preliminary proposal was developed to construct a pump station on or near Lake Chalet. As a condition of developing the Simon's Mill apartment complex, a stormwater utility easement and conveyance line was granted to the City, terminating near the west end of what is known as the Edgewood Dale Plat's "walkway tract". Staff discovered that this tract, together with Lake Chalet itself, is owned by an individual, verified through a title commitment / report from Ticor Title. The attached letter was sent to the owner in October 2018, staff has been in communication with the owner since that time, and the City has received the attached Quit Claim Deed. The City does not have direct access to Lake Chalet at this time, still needing to coordinate that with other adjacent land owners. Additional coordination and design is needed prior to construction of a pump station.			
COUNCIL COMMITTEE REVIEW AND RECOMMENDATION: N/A			
RECOMMENDED ACTION: Allow the Lake Chalet Resolution authorizing the Mayor to record the executed Quit Claim Deed for the Edgewood Dale lake and walkway tract to be placed on the next regular council agenda under the consent agenda.			
ALTERNATIVES TO RECOMMENDED ACTION: 1) Move to the next available council meeting for action 2) Forward to Study Session for further review

RE: Ownership of Lake Chalet – Edgewood Dale Plat Tracts

Ms. Palzer –

The City of Edgewood is developing a flood control program for the Edgewood Dale Plat area, locally known as Lake Chalet. Attached is a copy of the Edgewood Dale Plat for reference. Our understanding is that Lot 1 (outlined in red on attached map) was deeded by you to Mr. and Mrs. Shumate in September 1991, as you were the apparent legal owner (heir, successor, or assign) of said property originally controlled by Edgewood Development, Inc. However, as the Pierce County Assessor – Treasurer had a single parcel number assigned to the “Community Park” (highlighted in yellow on attached map), and Lot 1 was shown as part of said “Community Park”, they listed Mr. & Mrs. Shumate as taxpayer for the entire parcel.

In January 1997, Mr. and Mrs. Shumate consulted their attorney who confirmed that only Lot 1 was transferred to them, not the remainder of the “Community Park” (i.e., lake and walkway tracts). This was finally brought to the County’s attention this summer, and they have since corrected the issue by creating separate tax parcels for Lot 1 and the remainder. All that being said, it would appear that you remain the apparent legal owner of the lake and walkway tracts within the Edgewood Dale Plat.

The City is interested in constructing a stormwater pump station, as this is the most cost-effective flood control solution identified to-date. Under this concept, a pipe would be installed from a pump station near the lake to an existing discharge on the recently constructed Simons Mill Apartment site, located just west of the walkway tract (blue star on attached map).

Would you be interested in conveying the walkway tract to the City of Edgewood? I would appreciate the opportunity to discuss this with you at your earliest convenience. I can be reached by phone at (253) 831-4266, or by email at jeremy@cityofedgewood.org. Thank you very much for your time and consideration.

Sincerely,

Jeremy Metzler, P.E.
Public Works Director

City Of Edgewood Council Agenda Summary Sheet

SUBJECT: Litowitz Property Donation	Agenda Item #:		2D
	For Agenda of:		10/1/2019
	Prepared by:		Jeremy Metzler
ATTACHMENTS (list): ☒ Map Exhibit with Aerial Imagery of subject property ☒ Map Exhibit with Topographic Relief of subject property ☒ Map Exhibit with Potential Critical Areas on subject property ☒ Phase One Environmental Review by Klienfelder			
Approval of Materials:			
Mayor, Daryl Eiding	☐	Expenditure Required:	<u>\$0</u>
Asst. City Administrator, Dave Gray	☐	Amount Budgeted:	<u>\$0</u>
Interim City Attorney, Ann Marie J. Soto	☐	Timeline: Study Session Discussion 10/1/2019	
City Clerk/HR Director, Rachel Pitzel	☐		
Community & Economic Development Director, Darren Groth	☐		
Public Works, Jeremy Metzler	☒		
Police Chief, Micah Lundborg	☐		
Fiscal Note/Consideration: The cost of the Phase One Environmental Review was \$4,500.			
SUMMARY STATEMENT: The Litowitz Family has approached Mayor Eiding expressing interest in donating the subject property to the City. In response, a Phase One Environmental Review has been performed, in which some items have been identified warranting further environmental review. Attached are several map exhibits and the Phase One Environmental Review report for Council review and consideration. Prior to accepting the property, the Mayor has asked the current property owners to perform a Phase Two Environmental Review. In response, the property owners have asked for some assurance that the City is interested in the land donation, assuming the Phase Two Environmental review comes back favorably.			
COUNCIL COMMITTEE REVIEW AND RECOMMENDATION: N/A			
RECOMMENDED ACTION: Bring forward a Resolution acknowledging the proposed land donation and Council's support to the next Regular Council Meeting for action.			
ALTERNATIVES TO RECOMMENDED ACTION: 1) Forward to Study Session for further review

EXECUTIVE SUMMARY

A Phase I Environmental Site Assessment (ESA) was performed by Kleinfelder Inc. (Kleinfelder) on behalf of the City of Edgewood (Client) on the vacant undeveloped lots located west of West Valley Highway East, Edgewood, Pierce County, Washington. The property is identified by the Pierce County Assessor's Office as Parcel numbers 0420024021 and 0420024054. The aforementioned property will be hereafter referred to as the "Site".

This report was prepared consistent with the guidelines set forth in ASTM International (ASTM, formerly known as the American Society for Testing and Materials) Designation E 1527-13, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (the "Standard Practice"), and the All Appropriate Inquiry (AAI) section of the Small Business Liability Relief and Revitalization Act (the Federal Brownfields Law).

The Site is comprised of two individual parcels of land totally approximately 30 acres. The Site slopes uphill approximately 100 feet from the eastern border, along West Valley Highway East, to the west. The Site generally consists of undeveloped woodland throughout the majority of the western and northern portions of the Site. An unmaintained dirt access road enters the Site from the southeast corner, off of West Valley Highway East, and veers uphill toward the central portion of the Site. Several "make-shift" structures had been erected in a transient camp and at the time of the Site reconnaissance, this area was occupied by transients. Additionally, three vehicles and two boats were observed in the southern portion of the Site and appeared to have been partially disassembled at their current on-Site location.

Based on a review of historical documents and interview information, the Site was undeveloped in 1941, the earliest date of information reviewed. The Site has generally remained vacant of permanent structures until the 2000's. However, based on information collected from the owner, there may have been a house with an associated septic system that occupied the southeast corner of the Site in the 1990's and was demolished about 15 years ago. From the topographic maps reviewed, a structure was observed adjacent to the south of the Site, but no other historical information was available to confirm the former presence of the residential home. The owner indicated that a sand and gravel operation was temporarily located on the Site in the late-1990s.

However, shortly after grubbing operations began, the soils at the Site were deemed unsuitable and the sand and gravel operation ceased. Additionally, the owner indicated that several times in the last 15 years the vegetation on the Site has been thinned to allow for revegetation.

The Site was not identified on the regulatory lists reviewed in the EDR report. Based on the review of the regulatory documents available from the EDR report and various agencies, one facility was identified with the potential to environmentally impact the Site. Kleinfelder identified the Site within the boundary area of the Tacoma Smelter Plume on the State of Washington Department of Ecology (DOE) Toxics Cleanup Program website. Based on the information in the DOE files, the Site is located with an area that contains arsenic impacted soils in concentrations of 20 milligrams per kilograms (mg/kg) or less.

Kleinfelder's Phase I ESA did identify one recognized environmental condition (REC), and two potential environmental concerns in association with the Site:

REC:

- Based on the results of our Site reconnaissance, the potential for impacted soil due to the dumping and disassembling of vehicles in the southern portion of the Site is considered a REC.

While not defined as RECs, two potential environmental concerns were identified in association with the Site:

- Based on interviews with the owner, a residential home with a septic system may have occupied the southeast corner of the Site in the late-1990's and was removed about 15 years ago. We do not know the type of heating the house may have had, i.e. natural gas or heating oil. Should a septic system or heating oil tank be discovered in the future on the Site, they should be removed and disposed of in accordance with applicable regulations.

- *Tacoma Smelter Plume, Pierce, King and Thurston Counties* – The Site is located within the historic Tacoma Smelter Plume boundary. There is a potential that arsenic concentrations in the Site soils are at concentration of 20 mg/kg, with some variability in concentrations across the property.

Although not included in the scope of services for the Phase I ESA, we noted a potential wetland located along the eastern property border in the northern half of the Site that may extend from the public right-of-way onto the Site.

PHASE I ENVIRONMENTAL SITE ASSESSMENT
VACANT PROPERTY – WEST OF WEST VALLEY HIGHWAY EAST
EDGEWOOD, WASHINGTON 98372
ASSESSOR'S PARCELS: 0420024021 AND 0420024054

1 INTRODUCTION

This report is a summary of work performed using the guidelines set forth in ASTM Designation E 1527-13, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process" (the ASTM Standard) and All Appropriate Inquiry (AAI) standards of the Small Business Liability and Revitalization Act (the "Brownfields Law"). This report also generally conforms to the ASTM Standard's suggested table of contents. Minor format modifications have been made to the ASTM Standard's suggested table of contents to assist in better reading and understanding of the report findings.

1.1 PURPOSE

The purpose of this Phase I ESA is to assist the client in evaluating, to the extent feasible pursuant to the scope of services defined in our proposal (Document N0. SEA19P91589), dated February 21, 2019, and limitations discussed in this report, Recognized Environmental Conditions (RECs). As defined in the ASTM Standard, a REC is:

The presence or likely presence of any hazardous substances or petroleum products in, on or at a property: (1) due to a release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. De minimis conditions are not recognized environmental conditions.

As defined in the ASTM Standard, a Historical Recognized Environmental Condition (HREC) is:

The presence of an environmental condition which in the past would have been considered a recognized environmental condition, but which may or may not be considered a recognized environmental condition at the time the Phase I ESA is conducted. This can be the result of remedial actions in compliance with regulatory requirements or the evaluation of RECs to the satisfaction of the environmental professional.

Standard E 1527-13 also introduces the designation of Controlled REC (CREC). As defined in the ASTM Standard a CREC is:

A recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).

As defined in the ASTM Standard, a *de minimis* condition is:

A condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies.

This report describes Kleinfelder's assessment methodology and documents our findings, subject to the limitations presented in Section 1.5 of this report.

Kleinfelder environmental professionals (EPs) conducting this Site assessment included Mr. Brock Howell, the primary author of this report; Ms. Kerry Ruebelmann, the project manager; and Mr. Andrew Alvaro, who conducted the Site reconnaissance. A statement of qualifications is provided in Appendix A and resumes of EPs are available from Kleinfelder upon request.

1.2 DETAILED SCOPE-OF-SERVICES

The following sections describe Kleinfelder's work scope:

- Section 1, **Introduction**, includes a discussion of the purpose/reason for performing the Phase I ESA, significant assumptions (e.g., property boundaries if not marked in the field), limitations, exceptions, special terms and conditions (e.g., contractual), and user reliance parameters.
- Section 2, **Site Description**, is a compilation of information concerning the site location, legal description (if provided by the Client), current and proposed use of the site, a description of structures and improvements on the site at the time of Kleinfelder's assessment, and adjoining property use.
- Section 3, **Records Review**, is a compilation of Kleinfelder's review of several databases available from Federal, State, and local regulatory agencies regarding hazardous substance use, storage, or disposal at the site; and nearby facilities within the search distances specified in the ASTM Standard. Records provided by the Client are summarized and copies of relevant documents are included in the appendices of this report. Physical setting sources (including topography and soil and groundwater conditions) and typical Client-provided information (e.g., title records, environmental liens, specialized knowledge, valuation reduction for environmental issues, and owner, property manager, and occupant information) are also summarized in this section. Other interviews with people knowledgeable about the site (including the Client and government officials) are included in Section 6.
- Section 4, **History of the Site**, summarizes the history of the site and adjoining properties. This site history is based on various sources, which may include a review of historical aerial photographs, Sanborn Fire Insurance Maps, city or suburban directories, historical topographic maps, building department records, and results of previous site assessments.
- Section 5, **Site Reconnaissance**, describes Kleinfelder's observations during the Site reconnaissance. The methodology used and limiting conditions is described.

- Section 6, **Interviews**, is a summary of telephone and personal interviews performed with “Key Site Managers” that may include the site owner/manager, occupants/tenants, and the Client. Interviews were also conducted with local and state agencies with knowledge of the site. Additional interview sources may be contacted if Key Site Managers were not available prior to production of this report, and may include adjoining landowners and people with historical knowledge of the area.
- Section 7, **Evaluation**, is a presentation of our findings and opinions regarding the information in Sections 3 through 7, and presents our conclusions regarding the presence of RECs connected with the site and data gaps / data failures. In some instances, Kleinfelder also presents recommendations made to assist the client in evaluating potential future actions in response to environmental condition as they may affect future construction or regulatory compliance.
- Section 8, **References**, is a summary of some of the resources used to compile this report.

Pertinent documentation regarding the Site is included in the appendices of this report.

1.3 ADDITIONAL SERVICES

An evaluation of selected business environmental risks associated with the Site is not included in Kleinfelder’s scope of work. Common ASTM Standard non-scope considerations include: asbestos-containing building materials, radon, lead-based paint, lead in drinking water, wetlands, regulatory compliance, cultural and historical resources, industrial hygiene, health and safety, ecological resources, endangered species, indoor air quality/vapor intrusion assessments, and high voltage power lines. ASTM Standard non-scope considerations are not included in this report.

1.4 SIGNIFICANT ASSUMPTIONS

The findings in this report reflect our observations based on visual inspections, examination of available public records, and interviews with individuals associated with or potentially having useful knowledge of the Site. The passage of time, manifestation of latent conditions, or occurrence of future events may require further study at the Site; analysis of the data; and reevaluation of the findings, observations, and/or conclusions in the report. Further, this report

includes unverified information supplied to Kleinfelder by third-party sources. Kleinfelder does not guarantee the accuracy of the information supplied by its sources, but reserves the right to rely on this information in formulating a professional opinion on the potential for contamination at the Site. Kleinfelder also assumes the Client provided all applicable and available environmental records and specialized knowledge regarding the Site. Kleinfelder has not made other significant assumptions during the performance of this Phase I ESA.

1.5 LIMITATIONS AND EXCEPTIONS

Phase I ESAs are non-comprehensive by nature and may not identify all environmental problems, and will not eliminate all risk. This report is a qualitative assessment. Kleinfelder offers a range of investigative and engineering services to suit the needs of our clients, including more quantitative investigations. Although risk can never be eliminated, more detailed and extensive investigations yield more information, which may help the Client understand and better manage risks. Since such detailed services involve greater expense, we ask our clients to participate in identifying the level of service, which will provide them with an acceptable level of risk. Please contact the signatories of this report if you would like to discuss this issue of risk further.

Kleinfelder performed this Phase I ESA consistent with the guidelines set forth in the ASTM Standard, and the proposed scope subsequently approved by our Client. No warranty, either expressed or implied, is made. Environmental issues not specifically addressed in this report were beyond the scope of our services and not included in our evaluation.

This report may be used only by the Client for the purposes stated and only within a reasonable time from its issuance, but in no event later than one year from the date of the Site reconnaissance or environmental database report, whichever occurs first (February 26, 2019). Land or facility use, on- and off-Site conditions, regulations, or other factors may change over time, and additional work may be required with the passage of time. Since Site activities and regulations beyond our control could change at any time after the completion of this report, our observations, findings, and opinions can be considered valid only as of the date of the Site visit. Portions of this report should not be relied upon after 180 days from the date of its issuance (ASTM Standard, Section 4.6). Any party other than the Client who wishes to use this report shall notify Kleinfelder of such intended use. Based on the intended use of the report, Kleinfelder may require that additional work be performed and that an updated report be issued.

1.6 SPECIAL TERMS AND CONDITIONS

No special terms and conditions were agreed to either by the Client or Kleinfelder in addition to those discussed previously or those that are contained in our proposal (Document No. SEA19P91589).

2 SITE DESCRIPTION

The Site description presented in this section describes the condition of the Site at the time of the Phase I ESA. The Site location is shown on Figure 1.

2.1 LOCATION AND LEGAL DESCRIPTION

According to the Pierce County Assessor's Office, the Site is identified by the Assessor's Parcel numbers 0420024021 (9.50 acres) and 0420024054 (20.32 acres).

The information presented in Table 2.1 describes the physical location and legal description of the Site. This information was obtained from a review of various maps (such as topographic maps and tax assessor maps), aerial photographs, public records at City and/or County offices, interviews, and/or information provided by the Client.

TABLE 2.1
LOCATION AND LEGAL DESCRIPTION

PARAMETER	INFORMATION/COMMENTS
ADDRESS	No physical address
CITY, COUNTY and STATE	Edgewood, Pierce County, Washington
ASSESSOR'S PARCEL #	0420024021 (9.50 acres) and 0420024054 (20.32 acres)
LATITUDE/LONGITUDE	47.245079°North -122.258701°West
ACREAGE	Approximately 30 acres
ZONING	SF-2

2.2 CURRENT / PROPOSED USE OF THE PROPERTY

Current and proposed uses are described in Table 2.2.

TABLE 2.2
CURRENT/PROPOSED USES

PARAMETER	GENERAL OBSERVATIONS
CURRENT USE	Undeveloped property
PROPOSED USE	No current plans for the Site at this time.

2.3 DESCRIPTION OF STRUCTURES / IMPROVEMENTS

The Site consists of approximately 30 acres of undeveloped land located along the west side of West Valley Highway East. An unimproved dirt access road is accessible from West Valley Highway East, leading to a small clearing within the Site boundaries.

Structures and/or improvements observed on the Site at the time of Kleinfelder's Site reconnaissance are described in Table 2.3.

TABLE 2.3
STRUCTURES/UTILITIES

PARAMETER	GENERAL OBSERVATIONS
STRUCTURES	No permanent structures were observed, but make-shift shelters of tents, boards, and debris were observed.
UTILITIES	No utilities were identified on the site, but utility markings were identified along the eastern property boundary adjacent to West Valley Highway East.

2.4 CURRENT USES OF ADJOINING PROPERTIES

Kleinfelder performed a brief walk-around and drive-by survey of the properties immediately adjoining the Site on March 6, 2019. A summary of the surrounding properties is presented in Table 2.4.

TABLE 2.4
ADJOINING PROPERTIES

DIRECTION	LAND USE DESCRIPTION
NORTH	To the North of the Site is undeveloped native woodlands.
EAST	To the east of the Site across West Valley Highway is Rainbow Play Systems, and Bennett PSE Inc., a survey and engineering company, and undeveloped lots.
SOUTH	To the South of the Site is a mixture of undeveloped woodland and residential properties.
WEST	To the west of the Site are several residential properties at the top of the hill.

Based on the results of our Site reconnaissance, evidence of potential environmental concerns due to on-Site conditions were observed.

Photographs of the Site and surrounding areas are included as Figures 3 through 7, Site Photographs.

3 RECORDS REVIEW

3.1 STANDARD ENVIRONMENTAL RECORDS SOURCES

The purpose of the records review is to obtain and review records that would help to evaluate RECs of potential concern in connection with the Site and bordering properties.

Federal, state, and local regulatory agencies publish databases or "lists" of businesses and properties that handle hazardous materials or hazardous waste, or are the known location of a release of hazardous substances to soil and/or groundwater. These databases are available for review and/or purchase at the regulatory agencies, or the information may be obtained through a commercial database service. Kleinfelder contracted a commercial database service, Environmental Data Resources (EDR), of Shelton, Connecticut to perform the government database search for listings within the appropriate ASTM minimum search distance of the Site. A description of the types of information contained in each of the databases reviewed and the agency responsible for compiling the data is also included in the EDR Radius Report.

EDR utilizes a geographical information system to plot the locations of reported spills, leaks, incidents, etc. Kleinfelder reviews this information to help establish if the Site, or nearby properties, have been included in the noted databases and lists. The EDR Radius Report includes two maps (following Executive Summary of EDR's report) that show the locations of the listed properties with respect to the Site, and a summary of pertinent information for these properties. For each listed property, the summaries include the name of the responsible party, the property address, the distance, and direction from the Site, and the databases and lists on which the listed property appears. Additional details regarding listed properties may be found following the Executive Summary and maps in the EDR report. The dates the databases were last updated are also included in the EDR report. The EDR database search results are provided in Appendix B.

Each of the listings was reviewed to assess whether the corresponding property details included in the EDR report revealed a potential environmental impact to the Site.

Reported listings not specifically discussed below were found to not have the potential to impact the Site based on the following, or a combination thereof:

- The listed property was located at a distance where the facility would be unlikely to impact the Site based on Kleinfelder's evaluation of the relevant data in the EDR report and knowledge of the Site vicinity.
- The listed property was located in a down-gradient or cross-gradient direction from the Site, based on the anticipated direction of groundwater flow at the property being evaluated as flowing to the east/ southeast and is located at a distance that would be unlikely to impact the Site.
- The listed property was identified in the underground storage tank (UST) or Small Quantity Generator (SQG) databases and was not on or immediately adjoining the Site. The property was not listed in other databases that reported a release of a hazardous substance or petroleum product and/or was not listed as having environmental violations. The listing of a facility on these databases alone is not indicative of an unauthorized release.
- The listed property record indicates that the property was characterized, the reported release affected soil only, the listed property was not on or adjacent to the Site, and the release was not recognized as indicative of area-wide conditions or was characterized as a soil removal action only.
- The listed property record indicates that the case has been closed to the satisfaction of the designated lead regulatory agency and residual contamination, if present, is not considered likely to affect the Site based on one or more of the criteria mentioned in the bulleted items above.

Based on the above listed criteria that indicate no material threat of a release has impacted the Site, and/or no release occurred, that could require future regulatory agency oversight, these listings were not evaluated further and are not discussed in the following sections.

3.2 REGULATORY FINDINGS

Based on the results of the EDR's Radius Report and review of historical documents, the following facilities were noted at the Site or surrounding areas:

3.2.1 Site

The Site was not identified on the regulatory lists reviewed in the EDR report. However, it should be noted, Kleinfelder identified the Site within the boundary area of the Tacoma Smelter Plume on the State of Washington Department of Ecology (DOE) Toxics Cleanup Program website. Based on the information reviewed from the DOE website, the Site is located within the boundaries of the study area associated with the former Asarco Company copper smelter that was located in Tacoma, Washington. Historical activities at this facility resulted in airborne deposition of arsenic and lead on surficial soils over an approximate 200 square mile area. Currently the Site is located within an area that reportedly contains arsenic impacted soils in concentrations of less than 20 milligrams per kilogram (mg/kg) or less. According to the DOE website, the DOE recommends that soil samples be collected and analyzed from properties within these boundaries and that if soils are impacted with arsenic and /or lead that they be disposed of at an approved landfill facility. The current Washington State Model Toxics Control Act (MTCA) Method A cleanup level for unrestricted land use for arsenic is 20 mg/kg. However, the *Tacoma Smelter Plume Model Remedies* Guidance dated June 2012 has an established cleanup level for arsenic of 40 mg/kg.

3.2.2 Adjacent Properties

No adjacent properties were identified on the regulatory agency databases reviewed.

3.2.3 Surrounding Properties

Kleinfelder identified several regulatory-listed facilities within their respective search distances from the Site including, but not limited to, numerous Confirmed and Suspected Contaminated Sites List (CSCSL) facilities, Resource Conservation and Recovery Act (RCRA) NonGen/ NLR facilities, two Voluntary Cleanup Program (VCP) facilities, Hazardous Sites List (HSL), One leaking underground storage tank (LUST) facility, and Interim Cleanup Report (ICR) facility.

The facilities listed in the EDR report are either located at a distance unlikely to impact the Site or are hydrologically down-gradient from the Site.

3.3 ORPHAN LIST

Facilities not plotted by EDR due to poor or inadequate address information are referred to as orphan sites. The EDR database report identified two orphan sites. The orphan summary/unmapped sites report was reviewed to assess the potential for off-site properties that might pose a REC to the Site. Based on our review of the two sites identified in the EDR report, one of the two facilities (O'Conner Demolition Fill) is located 0.25 mile to the south of the Site. On March 8, 2019, a records request was submitted to the Washington State DOE in reference to records associated with the O'Conner Demolition Fill facility. Kleinfelder received a response from the Washington State DOE regarding the O'Conner Demolition Fill facility indicating that this facility is a closed landfill, which was closed by Tacoma Pierce County in 2010. Based on the reported regional groundwater flow direction of East to Southeast, this facility is cross to down-gradient of the Site and has a low potential to impact the Site.

3.4 VAPOR MIGRATION

Vapor migration refers to the movement of vapor-phase contaminants, such as hydrocarbons or solvents, through the subsurface soils and/or groundwater. Kleinfelder utilized EDR's Vapor Encroachment Screening (VEC) application to evaluate the potential for vapor migration onto the Site from nearby facilities. The VEC is generated from the same regulatory databases as the EDR Radius Map Report and combines the potential for a vapor migration issue based on the distance, source, and/or groundwater gradient from the potential sources in relation to the Site. Based on the information provided concerning the listed facilities within the ASTM search radii, vapor migration from the EDR reported regulated facilities is not anticipated to present a concern to the Site. A copy of the VEC report is included in Appendix C.

3.5 OTHER RECORDS REVIEWED / AGENCIES CONTACTED

Kleinfelder reviewed the following additional sources of environmental records during this Phase I ESA for the purposes of meeting the ASTM Standard. Kleinfelder contacted local regulatory

agencies for reasonably ascertainable and practically reviewable documentation regarding RECs present at the Site and adjoining facilities.

3.5.1 Washington State Department of Ecology

The Washington State DOE maintains an online database that includes a brownfields inventory, environmental covenant registry, leaking underground storage tank list, state cleanup sites details, and regulated underground storage tank summaries. Kleinfelder performed a search of the Ecology database, for information, if any, associated with the address associated with the Site. The Ecology database query did not provide records for the Site. On March 8, 2019, a records request was submitted to the Washington State DOE in reference to records associated with the Site. Kleinfelder received a response from the Washington State DOE regarding the O'Conner Demolition Fill facility indicating that this facility is a closed landfill, which was closed by Tacoma Pierce County in 2010. Based on the reported regional groundwater flow direction of East to Southeast, this facility is cross to down-gradient of the Site and has a low potential to impact the Site.

3.5.2 East Pierce Fire and Rescue

Kleinfelder contacted the East Pierce Fire and Rescue Department, on March 7, 2019 for records associated with storage tanks, hazardous materials, and code violations associated with the Site address. According to East Pierce Fire and Rescue, there are no environmental records associated with the Site.

3.5.3 Pierce County

Kleinfelder submitted a records request to the Tacoma-Pierce County Environmental Health Department, on March 7 and 12, 2019 for records of hazardous materials, septic systems, drainage and water quality, environmental enforcement actions, brownfields, underground storage tanks, wells, solid waste, and permits associated with the Site. Kleinfelder received a response from the Tacoma-Pierce County Environmental Health Department with the files associated with the Site and surrounding area. After review of the Health Department files it appears that a septic tank permit was processed in 2015 with a pending status. It is unclear if a septic tank actually occupied the Site, but from conversations from the owner, if it had, it would

have been located in the southeast corner of the Site. Additional files from the Health Department show proposed and excavated test pits across the Site for the historical sand and gravel operation discussed in Section 6.1 of this report.

3.5.4 Pipeline and Hazardous Materials Safety Administration, National Pipeline Mapping System

Pipeline information is available at the PHMSA's NPMS website (<https://www.npms.phmsa.dot.gov>). Kleinfelder researched pipeline information on the NPMS website on March 8, 2019 for the Site and vicinity. Based on our review, there are no mapped natural gas transmission pipelines or hazardous liquid pipelines located on the Site, or in the immediate vicinity of the Site (within a mile radius).

3.6 PHYSICAL SETTING SOURCE(S)

Table 3.6-1 presents information concerning the physical setting of the Site. This information was obtained from the EDR report and published maps.

**TABLE 3.6-1
PHYSICAL SETTING**

DATA	GENERAL INFORMATION
TOPOGRAPHY	According to the data reviewed, the Site topographic gradient slopes toward the east/northeast. The Site has an approximate elevation of 180 feet above mean sea level (MSL).
SOIL TYPE	According to the EDR Report, the soils beneath the Site consist of Class A Neilton gravelly loamy sand with high infiltration rates, and Class C Kitsap silt loam with slow infiltration rates, due to layers with moderately fine or fine textures impeding downward movement of water. The Neilton series consists of very deep, excessively drained soils that formed in glacial outwash. The Kitsap series consists of very deep, moderately well drained soils formed in lacustrine sediments. Both Neilton and Kitsap soils are on terraces and terrace escarpments that have slopes of 0 to 70 percent. The mean annual precipitation is about 37 inches. The mean annual temperature is about 50 degrees F (EDR).
OIL & GAS WELLS	According to the EDR Report, there are no oil or gas wells located within 1.0 mile of the Site. Kleinfelder also reviewed the Pipelines and Hazardous Materials Safety Administration (PHMSA) National Pipeline Mapping System website. According to PHMSA, no pipelines are located within 1.0 mile of the Site.

Information about the regional geology is presented in Table 3.6-2. This information was obtained by Kleinfelder from published data and maps, interviews with public agencies, and/or previous investigations performed by Kleinfelder in the site vicinity.

**TABLE 3.6-2
REGIONAL GEOLOGY AND HYDROGEOLOGY**

PHYSICAL PARAMETER	INFORMATION/COMMENTS
REGIONAL PHYSIOGRAPHY AND GEOLOGY	Qg1t – The Site is located within undivided Younger Pleistocene aged glacial drift, till, outwash, and associated deposits; sorted and unsorted sand, gravel, silt, and clay. Qg1t Includes some alluvium (USGS, 1999).
DEPTH OF REGIONAL GROUNDWATER AND DIRECTION OF ANTICIPATED FLOW¹	The groundwater flow direction may be affected by surface topography, hydrology, hydrogeology, seasonal fluctuations, and characteristics of the soil. Kleinfelder reviewed groundwater data in the EDR, the USGS groundwater watch website, and the DOE website. Based on information reviewed, the groundwater flow direction in the vicinity of the Site appears to flow to the east/ southeast toward the Puyallup River. Depth to water at the Site is unknown.
WATER SUPPLY	Water and sanitary sewer services are provided in the general area of the Site by Municipal Public Utilities.
WATER WELLS	Four Ecology Wells, drilled in 2007 and 2015 to depths ranging from 16.5 feet to 21 feet bgs, are listed within the Site boundaries. The four wells listed did not indicate a static water level.
FLOOD ZONE DESIGNATION	According to the EDR database, the Site is not located within the 500-year or the 100-year flood zone areas.

3.7 USER PROVIDED INFORMATION

A User Questionnaire was completed by Mr. Daryl Eidinger, Mayor of Edgewood, dated March 8, 2019. From phone conversations with Mr. Eidinger he indicated that the City of Edgewood is planning to help clean up the property for future use but there are no current plans for the Site. A copy of the user questionnaire is provided in Appendix C. Information regarding the current owners/occupants of the Site is summarized in Table 3.7.

**TABLE 3.7
OWNER / OCCUPANT INFORMATION**

ENTITY	NAME
OWNER	ALLITO PROPERTIES LLC, Carri Litowitz
OCCUPANT(S)	None

¹ Groundwater flow direction is based on regional information sources. Site-specific conditions may vary due to a variety of factors including geologic anomalies, utilities, nearby pumping wells (if present), and other factors.

Summaries of interviews of key individuals with knowledge of the Site (“Key Site Managers”) are provided in Section 6.

3.7.1 Title Records

Kleinfelder was not provided with title records from the User for the Site.

3.7.2 Environmental Liens and Usage Limitations

The EDR did not identify environmental liens, Activity and Use Limitations (AULs), judgment liens, or usage limitations associated with the Site.

3.7.3 Value Reduction

As part of the ASTM Designation E 1527-13 process, information is to be gathered regarding the prospective purchase price of the site relative to its fair market value. If there appears to be a value reduction, that reduction must be identified with respect to whether the difference could be attributed to environmental degradation of the property. According to the User Questionnaire provided to Kleinfelder from Mr. Eidinger, the purchase price is consistent with their underwriting for properties in the market. A copy of the user questionnaire is provided in Appendix C.

3.7.4 Other Information/Documents Provided

Kleinfelder was not provided with other information or documents.

4 HISTORY OF THE SITE

The history of the Site was researched to identify obvious uses. Historical land use was researched to the first developed use, or back to 1940, whichever was earlier or readily available. Table 4.1 summarizes the availability of information reviewed during this assessment.

TABLE 4.1
HISTORICAL INFORMATION SOURCES

SOURCE	YEARS REVIEWED	SOURCE / AVAILABILITY
SANBORN FIRE INSURANCE MAPS	unmapped	EDR, 05573347.3
AERIAL PHOTOGRAPHS	1941, 1943, 1957, 1965, 1968, 1972, 1980, 1985, 1990, 1998, 2002 through 2007, 2009, 2013, 2017, and 2010 through 2018	EDR, 05573347.9 and Google Earth Pro
CITY DIRECTORIES	1992, 1995, 2000, 2005, 2010, and 2014	EDR, 05573347.5
HISTORICAL TOPOGRAPHIC MAP REPORT	1897, 1900, 1941, 1944, 1949, 1956, 1961, 1968, 1973, 1981, 1993, 1997, and 2014	EDR, 05573347.4

4.1 SANBORN FIRE INSURANCE MAPS

Sanborn Fire Insurance Maps provide historical land use information for some metropolitan areas and small, established towns. The maps generally show the type of building construction, and locations of doors and windows. According to the EDR Certified Sanborn Map Report, the Site is unmapped. A copy of the EDR Certified Sanborn Map Report is included in Appendix D.

4.2 AERIAL PHOTOGRAPHS

A review of historical aerial photography may indicate past activities at a property that may not be documented by other means or observed during a reconnaissance visit. The effectiveness of this technique depends on the scale and quality of the photographs and the available coverage. Aerial photographs were obtained from EDR and other public sources. A tabulation of the aerial

photographs reviewed by Kleinfelder is presented in Table 4.2. Copies of the aerial photographs provided by EDR are included in Appendix D.

TABLE 4.2
HISTORICAL EDR AERIAL PHOTOGRAPHS REVIEWED

DATE	APPROXIMATE SCALE	TYPE	QUALITY
1941	1" = 500'	Black and White	Poor
1943	1" = 500'	Black and White	Poor
1957	1" = 500'	Black and White	Good

2013	1" = 500'	Color	Good
2017	1" = 500'	Color	Good

Note: Aerial photographs only provide information concerning indications of land use, and no conclusions regarding the release of hazardous substances or petroleum products can be drawn from the review of photographs alone. Aerial photographs listed in bold font were reviewed on Google Earth Pro®.

4.2.1 Site

In 1941, the Site appears to be undeveloped woodland, but due to the poor quality of the 1941 aerial photograph, details of the property could not be discerned. The Site continues to be undeveloped until 1965 when a portion of the woodland is removed, and a graded clearing is visible in the central portion of the Site. The graded clearing originates from the southeast corner of the Site and terminates in the south-central portion of the Site after bending north and back to the south. By 1972, the graded clearing is less visible due to vegetation surrounding the cleared area. On the 1972 aerial photograph, two smaller clearings adjacent to the West Valley Highway appear are visible along the eastern boundary and in the northeast corner of the Site. By 1978, the previously observed clearings that occupied various portions of the Site are barely visible, or no longer visible, due to vegetation overgrowth at the Site. By 1980, the majority of the central to southern portion of the Site has been cleared and graded. The purpose of the clearings and grading is unknown; no apparent infrastructure is visible. The previous cleared portion of the Site,

observed in 1980, is limited to the southeast corner of the Site due to vegetation regrowth. By 2002, the southern cleared portion of the Site is now a small unimproved-dirt roadway leading to a small clearing in the south-central portion of the Site. By 2004, three small vehicle-sized objects are visible in the southern clearing north of the unimproved dirt road. By 2005, the unimproved dirt road has extended to the central portion of the Site and the three vehicle-sized objects are no longer visible. By late-2006 the Site is overgrown with vegetation with no visible roadways or clearings. The Site is relatively unchanged from 2007 through the 2017 aerial photographs. By 2018, the unimproved dirt road is again visible in the southern portion of the Site and appears similar to what was observed during the Site reconnaissance.

4.2.2 Surrounding Areas

The Surrounding properties appeared to be a mixture of residential developments, agricultural, and undeveloped land, but due to the poor quality of the 1941 aerial photograph, details of the surrounding properties could not be discerned. By 1957, properties along established roadways begin to develop for apparent commercial and residential use, including the development of residential-sized structures on the property adjacent to the southeast corner of the Site. By 1968, a north-south trending dirt road is visible adjacent to the western boundary of the Site with two developed residential-sized structures adjacent to the roadway. Additional, but minor development is also apparent in the surrounding area of the Site in 1968. By 1978, significant development is apparent in the surrounding area, including the development of the property adjacent to the north of the Site, and initial construction of Highway WA-167 is underway east of the Site. Continued residential development west of the Site is also apparent in 1978. By 1980, the construction of Highway WA-167 appears completed and the property north of the Site has been cleared and graded, and by 1985 is developed with three distinct commercial-sized structures. By 1990, increased commercial development proximal to existing roadways is apparent in the surrounding area. Grading/ earthwork is also visible on the property located approximately 730 feet south of the Site in 1990. By 2002, increased residential and commercial development is apparent in the surrounding area, including the development of commercial-sized structures to the southeast, and the development of residential-size lots to the northwest of the Site. Commercial and residential development continues through 2009 with the first appearance of an additional commercial developed lot adjacent to the southeast of the Site. No significant notable changes were observed in the surrounding area after 2009, and the surrounding

properties appeared to be developed with structures similar to those observed at the time of the Site reconnaissance.

4.3 CITY DIRECTORIES

The EDR-City Directory Abstract (City Directory) provides the names of site occupants, located by address, for each year published on various directories and are utilized to help assess past uses of a property. If no numbered building exists (i.e. a residential or commercial building), the property will not appear in the City Directory. The following is a summary of Site listings as well as identified listings for surrounding properties that could have the potential to environmentally impact the Site based on historical operations. Directories were provided at approximately 5-year intervals from 1992 to 2014. A copy of the EDR-City Directory Abstract is provided in Appendix D.

4.3.1 Site and Adjacent Properties

The Site has no physical address and as a result was not listed in the city directories provided.

Kleinfelder also reviewed the listings for addresses along the cross-street: West Valley Highway East. The listings identified with addresses proximal to the Site along the previously mentioned cross-street consisted of residential properties, auto maintenance and repair shops, Truck and RV sales, grocery store (Days Groceries), oil containment services, engineering firms, and commercial businesses. See table below for details.

Address	Date	Listing
1723 West Valley Highway East	2000	Cedar Recycling Center LLC Eck, Jerald D
	2005	Aluminum Marine North River
	2010	Big John Oil and Lube Equipment Unlimited
	2014	DUB Autowerkstatt LLC

Address	Date	Listing
1621 West Valley Highway East	1995	Bailey Security Inc. Liberty RV Center Morgan Machinery National Heating Inc.
	2000, 2005, 2010	Liberty RV Center
	2014	3 Kings Environmental
1618 West Valley Highway East	2000, 2014	Residence
1423 West Valley Highway East	2005	Residence
	2010	Brim Tractor
	2014	Cedar Recycling
1415 West Valley Highway East	2005, 2010, 2014	Residence
	2014	Tow Jam Towing LLC
1409 West Valley Highway East	2000, 2005	Residence
	2010	Valley Trucks
	2014	Rainbow Factory Showrooms
610 West Valley Highway East	1995, 2000, 2005, 2010	Days Groceries

There are several businesses listed with the potential to use, store, and dispose of petroleum products and other chemicals, and to have had spills or releases of these products. However, based on the reported groundwater gradient to the east or southeast, these facilities would be downgradient from the Site and have a low potential to impact the Site.

4.4 HISTORICAL TOPOGRAPHIC MAP REVIEW

A review of historical U.S. Geological Survey (USGS) Topographic Maps may indicate past activities of environmental concern at a property. Kleinfelder obtained and reviewed Quadrangle Topographic Maps for this Site from EDR. The Site is located on either the Tacoma South or Puyallup Topographic Maps, however, based on the location of the Site, EDR provided several adjoining topographic maps for review. The topographic maps reviewed for this assessment are

listed in Table 4.4 (the topographic map that the Site is located on is provided in bold for clarification). The reviewed EDR topographic maps are provided in Appendix D.

TABLE 4.4
HISTORICAL TOPOGRAPHIC MAPS REVIEWED

YEAR	QUADRANGLE	SERIES	SCALE
1897	Tacoma	30 minute	1:125,000
1900	Tacoma	30 minute	1:125,000
1941	Tacoma South , Lake Tapps	15 minute	1:62,500
1944	Tacoma South	15 minute	1:50,000
1949	Auburn, Poverty Bay	7.5 minute	1:25,000
1956/1961	Puyallup, Tacoma South Poverty Bay, Sumner	7.5 minute	1:24,000
1968	Puyallup , Poverty Bay, Auburn, Sumner	7.5 minute	1:24,000
1973	Puyallup , Poverty Bay, Auburn, Sumner	7.5 minute	1:24,000
1981	Puyallup , Poverty Bay	7.5 minute	1:24,000
1993	Puyallup , Poverty Bay, Auburn, Sumner	7.5 minute	1:24,000
1997	Puyallup , Poverty Bay	7.5 minute	1:24,000
2014	Puyallup , Poverty Bay, Auburn, Sumner	7.5 minute	1:24,000
Bold represents the topographic map the Site is depicted on.			

4.4.1 Site

No buildings or structures are depicted at the Site on the 1897 through 2014 topographic maps. In the 1968 through 1997 topographic maps the Site has an unimproved dirt road depicted within the Site boundaries, which is no longer depicted on topographic maps post 1997. The 2014 topographic map does not depict individual buildings or structures but primarily depicts streets and roads, which are similar to present day.

4.4.2 Surrounding Areas

Two buildings or structures are depicted on two adjacent properties east of the Site on the 1897 and 1900 topographic maps but have been removed by 1941. By 1941, residential sized structures are depicted adjacent to major roadways proximal to the Site. Residential and commercial developments continue through 1997 and are depicted in the surrounding area of the Site, with larger rectangular structures depicted west and east of the Site in the 1981 and 1993 topographic maps. The 2014 topographic map does not depict individual buildings or structures but primarily depicts streets and roads, which are similar to present day.

4.5 PREVIOUS ASSESSMENTS

Kleinfelder was not provided with previous assessments of the Site.

5 SITE RECONNAISSANCE

Kleinfelder's Phase I ESA activities included a Site reconnaissance. This section summarizes the findings from the Site reconnaissance.

5.1 METHODOLOGY AND LIMITING CONDITIONS

Mr. Andrew Alvaro, of Kleinfelder, performed a Site reconnaissance on March 6, 2019. The Site reconnaissance included a visual inspection of the Site to assist in identifying the presence or likely presence of hazardous substances or petroleum hydrocarbons under conditions that indicate an existing release, a past release, or threat of release into structures, soil, groundwater, or surface water at the Site (i.e., RECs). Observations of readily-apparent environmental conditions are summarized in Table 5.3, and color photographs of the Site and surrounding area are included as Figures 3 through 7. The approximate Site boundaries are shown on Figure 1 (Site Location Map) and Figure 2 (Site Vicinity Map).

5.2 GENERAL SITE SETTING

The Site is comprised of two individual parcels of land totally approximately 30 acres. The Site is bordered on the east by West Valley Highway East. The Site slopes from west to east with an approximate drop of 100 feet from the top of the slope on the western Site boundary to the approximate eastern edge of the Site. The Site generally consists of undeveloped woodland throughout the majority of the western and northern portions of the Site. An unmaintained dirt access road enters the Site from the southeast corner, off of West Valley Highway East, and veers uphill toward the central portion of the Site.

5.3 SITE OBSERVATIONS

Kleinfelder's Site observations are summarized in Table 5.3.

TABLE 5.3
SITE OBSERVATIONS

GENERAL OBSERVATIONS	REMARKS	OBSERVED	NOT OBSERVED
Current use	The Site consists primarily of undeveloped woodland with areas of dumping in the southeastern corner and an area occupied by transients in the central portion of the Site.	X	
Current use likely to indicate RECs	Based on the dumping and dismantling of automobiles in the southern area of the Site, fuels and/or oils may have been released onto the ground surface.	X	
Past use	Vacant lot		X
Past use likely to indicate RECs	No		X
Structures	No permanent structures were observed, however, numerous temporary structures occupied by transients was observed in the central portion of the Site.	X	
Roads	A dirt access road enters the Site from the southeast corner (off of West Valley Highway East) and veers uphill toward the central portion of the Site.	X	
Topography of Site and surrounding area	The Site slopes approximately 100 feet uphill from the east toward the west with the more drastic slopes observed along the western border and in the northern half of the Site.	X	
Interior and exterior observations or environmental conditions that may involve the use, storage, disposal, or generation of hazardous substances or petroleum products.		Observed	Not Observed
Aboveground storage tanks (ASTs)	None		X
Below grade vaults	None		X
Burned or buried debris	None		X
Chemical storage	None		X
Chemical mixing areas	None		X
Asbestos	None		X

TABLE 5.3 (CONTINUED)
SITE OBSERVATIONS

GENERAL OBSERVATIONS	REMARKS	OBSERVED	NOT OBSERVED
Discolored soil or water	Areas of discolored soil were observed in the general vicinity of the disassembled vehicles in the southern area of the Site.	X	
Drains and piping (e.g. floor drains, floor trenches, bay drains, sand traps, grease traps)	None		X
Drums	None		X
Electrical or hydraulic equipment (polychlorinated biphenyls [PCBs])	None		X
Fill dirt from a known source	None		X
Hazardous chemical and petroleum products in connection with known use	None		X
Non-hazardous containers with contents	Numerous containers were observed surrounding the transient camp in the central portion of the Site.	X	
Hazardous waste storage	None		X
Heating and cooling system and fuel source	None		X
Industrial waste treatment equipment	None		X
Loading and unloading areas	None		X
Odors	None		X
Pits, ponds, or lagoons	None		X
Pools of liquid	None		X
Process waste water	None		X
Sanitary sewer system	None		X
Septic system (e.g. tank and leach fields)	None		X
Soil piles	None		X
Solid waste/evidence of Unauthorized Dumping	Numerous areas of dumping were observed on the Site, including along the access road in the southern portion of the Site and near the transient camp in the central portion of the Site.	X	

TABLE 5.3 (CONTINUED)
SITE OBSERVATIONS

GENERAL OBSERVATIONS	REMARKS	OBSERVED	NOT OBSERVED
Stained pavement, soil or concrete	Areas of discolored soil were observed in the general vicinity of the disassembled vehicles in the southern area of the Site.	X	
Stains or corrosion (interior, non-water)	None		X
Storm drains/catch basins	None		X
Stressed vegetation	None		X
Sumps and clarifiers	None		X
Surface water	Standing water on the eastern edge of the Site of the northern half.		X
Underground Storage tank(s) (including heating oil tanks)	None		X
Unidentified substance containers	Numerous containers were observed surrounding the transient camp in the central portion of the Site.	X	
Waste water discharge	None		X
Water supplies (potable and process)	None		X
Wells (irrigation, monitoring, or domestic)	None		X
Wells (dry)	None		X
Wells (oil and gas)	None		X

5.4 RESULTS OF SITE RECONNAISSANCE

Kleinfelder performed a visual reconnaissance of the Site and adjoining properties on March 6, 2019. At the time of the Site reconnaissance, the weather was a mixture of rain and snow, which obstructed the view of the ground in certain areas. The Site consists of approximately 30 acres of undeveloped land located along the west side of West Valley Highway East in Edgewood Washington. The Site slopes uphill from the east, along West Valley Highway East, toward the west with significant increases along the western border of the Site. Although the slopes prohibited Kleinfelder from physically traversing the entire western border and north portion of the Site, Kleinfelder was able to view most of the western and northern portions from low spots in the central and southern areas of the Site. The Site is bound on the southern and western

borders by residential properties and to the north by a mixture of undeveloped woodland and residential properties. To the east of the Site, across West Valley Highway East, is Rainbow Play Systems and Bennet PS&E Surveying and Engineering. No potential environmental concerns were observed on the adjacent properties.

A dirt access road enters the Site from the southeastern corner of off West Valley Highway East. This dirt road has been intentionally barricaded by a tree log to prevent unauthorized vehicular access to the Site. Along the road, both before and after the barricade, Kleinfelder observed numerous abandoned vehicles, boats, and trash. Based on the condition of some of the vehicles, it appears that some of the vehicles were transported onto the Site and then disassembled. Minor areas of soil staining were observed beneath and surrounding these vehicles, however, due to the wet ground surface it was difficult to ascertain the depth of soil impacts.

In the central portion of the Site, Kleinfelder identified significant areas of dumping. The majority of the dumping appeared to consist of residential trash associated with a transient camp located in the central portion of the Site. Several “make-shift” structures had been erected in the transient camp and at the time of the Site reconnaissance, this area was occupied by transients.

Although not typically included in the scope of services for a Phase I ESA, there may be wetlands located along the eastern property border in the northern half of the Site that may extend from the public right-of-way onto the Site. This observation of a potential marsh/ wetland was made at time of the Site reconnaissance as standing water had accumulated on the western edge of the public right-of-way adjacent to the Site. Additionally, mapped wetlands exist along the eastern edge of the West Valley Highway East public right-of-way.

Based on the results of our Site reconnaissance, the potential for impacted soil due to the dumping and disassembling of vehicles in the southern portion of the Site would be considered a REC.

6 INTERVIEWS

Key Managers of the Site are typically contacted to obtain current and historical environmental information concerning the Site. The following sections highlight information revealed during the interviews.

6.1 INTERVIEW WITH OWNER

Kleinfelder interviewed the property owner Mr. David Litowitz on March 6, 2019 and also sent an owner interview questionnaire to be completed. According to the owner, the Site has been owned by the Litowitz family for approximately 25 years.

According to the owner, the past and current use of the property is vacant undeveloped land with no known chemical or petroleum use and/ or storage on the Site. However, the owner indicated there had been a house with a septic system that was demolished near West Valley Highway about 15 years ago. The owner indicated that a sand and gravel operation was temporality located on the Site in the late-1990s. However, shortly after grubbing operations began the soils at the Site were deemed unsuitable and the sand and gravel operations ceased. Additionally, the owner indicated that several times in the last 15 years the vegetation on the Site has been thinned to allow for revegetation. The owner is not aware of any environmental concerns, liens, activity or use limitations, value reduction, spills, or releases associated with the Site. The completed Owner Questionnaire is provided in Appendix C.

6.2 INTERVIEW WITH USER

Edgewood City Mayor, Mr. Daryl Eidinger, completed a User Questionnaire. He indicated the City was not aware of any environmental concerns associated with the Site, and for all intents and purposes, the City is paying fair market value for the property. He also stated that there are no current plans for the Site at this time, just open space for now.

7 EVALUATION

This report was prepared using ASTM International (ASTM, formerly known as the American Society for Testing and Materials) Designation E 1527-13, “*Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*” (the ASTM Standard), in accordance with Kleinfelder’s February 21, 2019 proposal (SEA19P91589). Findings address RECs, historical RECs, controlled RECs, and notation of *de minimis* quantities, as applicable to the Site. In summary, Kleinfelder’s assessment revealed the following information concerning the Site:

7.1 BACKGROUND

The Site is comprised of two individual parcels of land totally approximately 30 acres. The Site slopes uphill from east to west, approximately 100 feet. The Site generally consists of undeveloped woodland throughout the majority of the western and northern portions of the Site. An unmaintained dirt access road enters the Site from the southeast corner, off of West Valley Highway East, and veers uphill toward the central portion of the Site. There are currently no permanent structures on the Site. However, according to the owner a residential structure may have occupied the southeast corner of the Site in the early-1990s, which was demolished approximately 15 years ago.

Although not typically included in the scope of services for a Phase I ESA, there may be a potential wetland located along the eastern property border in the northern half of the Site that may extend from the public right-of-way onto the Site. At time of the Site reconnaissance standing water had accumulated on the western edge of the public right-of-way adjacent to the Site. Additionally, mapped wetlands exist along the eastern edge of the West Valley Highway East public right-of-way.

7.2 DEVIATIONS AND ADDITIONAL SERVICES

The scope of this Phase I ESA does not incorporate ASTM Standard non-scope considerations, such as, but not limited to, asbestos-containing building materials, radon, lead-based paint, lead

in drinking water, wetlands, regulatory compliance, cultural and historical resources, industrial hygiene, health and safety, ecological resources, endangered species, indoor air quality/vapor intrusion, and high-voltage power lines.

7.3 FINDINGS, OPINIONS, AND CONCLUSIONS

Kleinfelder has performed a Phase I ESA, in conformance with the scope of services required by ASTM Designation E 1527-13 and our proposal (Document NO. SEA19P91589). Exceptions to and deviations from this practice are described in Section 7.2 of this report.

Kleinfelder has performed a Phase I ESA of the Site in conformance with the scope and limitations of ASTM practice E1527. **This assessment has revealed one Recognized Environmental Condition (REC), and two potential environmental concerns associated with the Site as follows:**

REC:

- Based on the results of our Site reconnaissance, the potential for impacted soil due to the dumping and disassembling of vehicles in the southern portion of the Site is considered a REC.

While not defined as RECs, two potential environmental concerns were identified in association with the Site:

- Based on interviews with the owner, a residential home with a septic system may have occupied the southeast corner of the Site in the late-1990's and was removed about 15 years ago. We do not know the type of heating the house may have had, i.e. natural gas or heating oil. Should a septic system or heating oil tank be discovered in the future on the Site, they should be removed and disposed of in accordance with applicable regulations.

- *Tacoma Smelter Plume, Pierce, King and Thurston Counties* – The Site is located within the historic Tacoma Smelter Plume boundary. There is a potential that arsenic concentrations in the Site soils are at concentration of 20 mg/kg, with some variability in concentrations across the property.

7.3.1 Data Gaps and Data Failures

Although Kleinfelder attempted to obtain reasonably ascertainable information regarding the Site, some information was either not received or not readily available at the time of this report. Therefore, consistent with ASTM Standard Practice E 1527-13, the following data gaps have been identified:

- The previous owner was not available for an interview, but the owner questionnaire was completed by the current owner.

Based on a review of the data gaps presented above, it is Kleinfelder's opinion that the data gaps are not likely to have affected the identification of hazardous substances or petroleum products for the evaluation of RECs at the Site. In Kleinfelder's opinion, based on information received to date, the lack of this information does not represent a data failure. Should additional information be received that would alter our conclusions and recommendations, the Client will be notified.

APPENDIX A

Statement of Qualifications

QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

I declare that to the best of my professional knowledge and belief, I meet the definition of environmental professional as defined in Section 312.10 of 40 CFR, and I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the site. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Section 312.

Kerry L. Ruebelmann

Date: 03/22/2019

Kerry L. Ruebelmann, PG

Senior Project Manager

The resumes of above-listed environmental professionals performing this environmental site assessment are on file at the Kleinfelder office and are available on request.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

EXECUTIVE SUMMARY

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

STANDARD ENVIRONMENTAL RECORDS

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 12/13/2018 has revealed that there is 1 SEMS-ARCHIVE site within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 03/01/2018 has revealed that there is 1 RCRA-LQG site within approximately 0.25 miles of the target property.

State- and tribal - equivalent NPL

HSL: The Hazardous Sites List is a subset of the CSCSL Report. It includes sites which have been assessed and ranked using the Washington Ranking Method (WARM).

A review of the HSL list, as provided by EDR, and dated 08/22/2018 has revealed that there is 1 HSL site within approximately 1 mile of the target property.

State- and tribal - equivalent CERCLIS

CSCSL: The State Hazardous Waste Sites records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. The data come from the Department of Ecology's Confirmed & Suspected Contaminated Sites List.

A review of the CSCSL list, as provided by EDR, and dated 10/16/2018 has revealed that there are 4 CSCSL sites within approximately 1 mile of the target property.

CSCSL NFA: The data set contains information about sites previously on the Confirmed and Suspected Contaminated Sites list that have received a No Further Action (NFA) determination. Because it is necessary to maintain historical records of sites that have been investigated and cleaned up, sites are not deleted from the database when cleanup activities are completed. Instead a No Further Action code is entered based upon the type of NFA determination the site received.

A review of the CSCSL NFA list, as provided by EDR, and dated 10/16/2018 has revealed that there are 3 CSCSL NFA sites within approximately 0.5 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 03/01/2018 has revealed that there are 2 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Historical Generators:

Date form received by agency: 04/13/2005

Site name: WA ECY 624 OLD MAN THOMAS METH LAB

Classification: Not a generator, verified

. Waste code: D001

. Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

. Waste code: D002

. Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

. Waste code: F003

. Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NON-HALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS, AND, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: F005

. Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource

Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

. Waste code: D035
. Waste name: METHYL ETHYL KETONE

. Waste code: F003
. Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NON-HALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS, AND, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: F005
. Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Date form received by agency: 03/03/2010

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

[Click this hyperlink](#) while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Waste Stream Comments:

Facility ID: 1283
Data Year: 2006
Comments: A7 The waste is derived from the wood treatment process. Sludge cleaned from filters, tank bottoms and the A8 drip pad. The process uses air pressure and a vacuum to force a water based solution of CCA into the wood.

Waste Stream Comments:

Facility ID: 1283
Data Year: 2006
Comments: A7 The waste is derived from the wood treatment process. Sludge cleaned from filters, tank bottoms and the A8 drip pad. The process uses air pressure and a vacuum to force a water based solution of CCA into the wood.

Facility ID: 1283
Data Year: 2008
Comments: A7 The waste is derived from the wood treatment process. Sludge cleaned from filters, tank bottoms and A8 the drip pad. The process uses air pressure and vacuum to force a water based solution into the wood.

Waste Stream Comments:

Facility ID: 1283
Data Year: 2006
Comments: A7 The waste is derived from the wood treatment process. Sludge cleaned from filters, tank bottoms and the A8 drip pad. The process uses air pressure and a vacuum to force a water based solution of CCA into the wood.

Facility ID: 1283
Data Year: 2008
Comments: A7 The waste is derived from the wood treatment process. Sludge cleaned from filters, tank bottoms and A8 the drip pad. The process uses air pressure and vacuum to force a water based solution into the wood.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Data Release Frequency: Quarterly

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 03/01/2018	Source: Environmental Protection Agency

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 03/01/2018	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/28/2018	Telephone: (206) 553-1200

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 03/01/2018	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/28/2018	Telephone: (206) 553-1200

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

Number of Days to Update: 198	Next Scheduled EDR Contact: 04/01/2019
	Data Release Frequency: Every 4 Years

TRIS: Toxic Chemical Release Inventory System

Toxic Release Inventory System. TRIS identifies facilities which release toxic chemicals to the air, water and land in reportable quantities under SARA Title III Section 313.

Date of Government Version: 12/31/2016	Source: EPA
Date Data Arrived at EDR: 01/10/2018	Telephone: 202-566-0250
Date Made Active in Reports: 01/12/2018	Last EDR Contact: 02/20/2019
Number of Days to Update: 2	Next Scheduled EDR Contact: 06/03/2019
	Data Release Frequency: Annually

SSTS: Section 7 Tracking Systems

Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.

Date of Government Version: 12/31/2009	Source: EPA
Date Data Arrived at EDR: 12/10/2010	Telephone: 202-564-4203

Number of Days to Update: 14	Next Scheduled EDR Contact: 03/18/2019
	Data Release Frequency: Annually

RMP: Risk Management Plans

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

Date of Government Version: 10/26/2018	Source: Environmental Protection Agency
Date Data Arrived at EDR: 11/06/2018	Telephone: 202-564-8600

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

TACOMA/PIERCE COUNTY:

LF TACOMA/PIERCE: Closed Landfill Survey

Following numerous requests for information about closed dumpsites and landfills in Pierce County, the Tacoma-Pierce County Health Department decided to conduct a study on the matter. The aim of the study was to evaluate public health risks associated with the closed dumpsites and landfills, and to determine the need, if any, for further investigations of a more detailed nature. The sites represent all of the known dumpsites and landfills closed after 1950.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

Version Date:	2014

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General ENE

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
PUYALLUP	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Location Relative to TP:	1/2 - 1 Mile ENE
Site Name:	POTELCO INC
Site EPA ID Number:	WAD988485983
Groundwater Flow Direction:	TOWARD THE WHITE RIVER DURING PERIODS OF LOW RIVER FLOW, WITH SOME FLOW REVERSAL DURING HIGH RIVER FLOWS
Inferred Depth to Water:	10 feet
Hydraulic Connection:	Sands and silty sands underlie the site to a depth of approximately 60 feet.
Sole Source Aquifer:	No information about a sole source aquifer is available
Data Quality:	Information is inferred in the CERCLIS investigation report(s)

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Neilton

Soil Surface Texture: gravelly loamy sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Excessively drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	3 inches	gravelly loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Gravels, Clean gravels, Poorly Graded Gravel. COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel.	Max: 705 Min: 141	Max: 7.3 Min: 5.6
2	3 inches	20 inches	gravelly loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Gravels, Clean gravels, Poorly Graded Gravel. COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel.	Max: 705 Min: 141	Max: 7.3 Min: 5.6

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
3	20 inches	59 inches	very gravelly sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Gravels, Clean gravels, Poorly Graded Gravel. COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel.	Max: 705 Min: 141	Max: 7.3 Min: 5.6

Soil Map ID: 2

Soil Component Name: Xerochrepts

Soil Surface Texture: gravelly sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	5 inches	gravelly sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel	Max: 42 Min: 4	Max: 6.5 Min: 5.6

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
2	5 inches	40 inches	gravelly sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel	Max: 42 Min: 4	Max: 6.5 Min: 5.6
3	40 inches	59 inches	very gravelly sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel	Max: 42 Min: 4	Max: 6.5 Min: 5.6

Soil Map ID: 3

Soil Component Name: Kitsap

Soil Surface Texture: silt loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Moderately well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 61 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	9 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 1.4 Min: 0.42	Max: 7.3 Min: 6.1

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
2	9 inches	31 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 1.4 Min: 0.42	Max: 7.3 Min: 6.1
3	31 inches	59 inches	stratified silt to silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 1.4 Min: 0.42	Max: 7.3 Min: 6.1

Soil Map ID: 4

Soil Component Name: Kapowsin

Soil Surface Texture: gravelly loam

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.

Soil Drainage Class: Moderately well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 61 inches

Soil Layer Information

Soil Map ID: 5

Soil Component Name: Alderwood

Soil Surface Texture: gravelly sandy loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Moderately well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Map ID: 9

Soil Component Name: Puyallup

Soil Surface Texture: fine sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 153 inches

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Source: Department of Ecology

Telephone: 360-407-6121

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Wells

Source: Department of Health

Telephone: 360-236-3148

Group A and B well locations.

Water Well Listing

Source: Public Utility District

Telephone: 206-779-7656

A listing of water well locations in Kitsap County.

Ecology Well Logs

Source: Department of Ecology

Telephone: 360-407-7294

Point geodatabase with a record for each Ecology well report. Points are located by quarter quarter section centroid.

Points contain all well report types including water wells, resource protection wells, and decommissioned wells.

OTHER STATE DATABASE INFORMATION

Oil and Gas Well Listing

Source: Department of Natural Resources

Telephone: 360-902-1450

Locations that represent oil and gas test well sites in Washington State from 1890 to present.

RADON

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency

(USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey.

The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRRA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

QUESTIONNAIRE
PHASE I ENVIRONMENTAL SITE ASSESSMENT
Compatible with ASTM Standard E 1527-13

Vacant Property – Two Assessor's Parcels: 0420024021 (9.50 acres) and
0420024054 (20.32 acres); 30 Acres Combined

Site Location: West of West Valley Highway East

Date: 3/7/2019

Interviewer: _____

Interviewee: _____

Site Association: _____

Years Associated With the Site: 20+ years

Please answer the following questions to the best of your knowledge.

1. Was the property or adjoining property ever used for industrial purposes (e.g. manufacturing) or as a gas station, dry cleaners, waste treatment, processing facility, motor repair facility, photo lab, commercial printing facility, junkyard/disposal/recycling/ landfill? If yes, please list the activity, hazardous substances used, and approximate dates when the activity occurred.

Prior land use, hazardous substances used, and dates:

No

Prior owners, key site managers/operators, occupants and dates:

Unknown

Existing or prior structures used for what purposes and duration:

There had been a house that was demolished near West Valley Highway about 15+ years ago.

2. Do any of the following documents exist for the site or any portion of the site? If so, can you provide Kleinfelder with a copy?

- ☐ Environmental site assessment reports
- ☐ Environmental compliance audit reports
- ☐ Environmental permits
- ☐ Underground Storage Tank registration
- ☐ Underground Injection System registration
- ☐ Material Safety Data Sheets
- ☐ Community Right-To-Know Plan
- ☐ Safety plans: preparedness and prevention plans; spill prevention; countermeasure; and control plans, etc.
- ☐ Reports regarding hydrogeologic conditions on the property or surrounding area;
- ☐ Correspondence from any government agency relating to past or current violations of environmental laws with regard to the property or relating to environmental liens encumbering the property
- ☐ Hazardous waste generator notices or reports
- ☐ Geotechnical studies
- ☐ Risk assessments
- ☐ Recorded Activity and Use Limitations (AULs)

Unknown, if there has ever been any work done. There were some preliminary drawings for plot layouts.

3. Have you ever observed evidence of or do you have prior knowledge of any of the following items being used, stored, discarded, dumped above grade, buried, or burned onsite? Circle all that apply and indicate amount and approximate dates. *NO*

MATERIAL	QUANTITY	DATE(S) OBSERVED	COMMENTS
Above ground storage tank (AST)*			Size: Contents: Condition:
Automotive batteries			
Industrial batteries			
Pesticides (>5 gallon)			
Paints (> 5 gallon)			
Chemicals/Hazardous Substances (> 5 gallon liquid)			

MATERIAL	QUANTITY	DATE(S) OBSERVED	COMMENTS
Chemicals/Hazardous Substances (dry sacks, containers, etc.)			
Industrial drums (typically 55 gallons)			Contents: Condition:
Transformer or other equipment that may contain PCBs (e.g. hydraulic equipment)*			Installation date:
Underground storage tank*			Size: Contents: Condition:
Unknown materials you suspect may be hazardous substances			Describe:

*Please provide records if available.

4. What method(s) is used to contain spills of hazardous waste?

NA

5. What method(s) is used to dispose of hazardous waste?

NA

6. Are there any permits for handling, use, storage, or disposal of hazardous waste?

NA

7. Have you observed evidence of or have prior knowledge of the following onsite?

NA

MATERIAL	QUANTITY	DATE(S) OBSERVED	COMMENTS
Equipment Maintenance Areas			
Accidental spills or releases of chemicals or petroleum products			

MATERIAL	QUANTITY	DATE(S) OBSERVED	COMMENTS
Possible asbestos containing materials (e.g. pipe, building, etc.)			Describe material:
Fill dirt originating from an unknown or contaminated site?			Source:
Pits, ponds, or lagoons associated with waste treatment or waste disposal?			Location:
Stained soil or odiferous soil? (e.g. oily black)			Location:
Sumps or dry wells*			Size : Contents : Condition :
Vent pipes, fill pipes, access ways to a fill pipe protruding from the ground or adjacent to a structure onsite?			Location:
Heating and cooling systems (include fuel source)			Source:
Flooring, drains, walls that are stained or emitting a foul odor (do NOT include water damage)?			Location:

*Please provide records, if available.

8. Is the property served by a private well or non-public water system? If so, please answer the following: *Unknown I think the old house may have been on a public water source*
- a. Was the well used for domestic (D), agricultural irrigation (I), or monitoring (M) purposes? Are the wells currently operational and if not, when were they last used? When was the well drilled? How deep is the well? What is the approximate discharge rate?

Well No.	Type	Operating?	Last Used	Date Drilled	Depth	Discharge Rate	Location
1-							
2-							

b. Have the wells been sampled for contaminants that exceed applicable requirements for the designated use (e.g. Drinking Water Standards)? If so, please provide the dates and copies of well records.

c. Has the well or water system been designated by any governmental environmental/health agency as contaminated?

9. Is there an oil/gas well or oil/gas vent located onsite? If so, please indicate the location. Please supply any documents available. *Unknown*

10. Is the property or has the property to your knowledge been previously served by a septic system? If so, please indicate the location of the tank and leach lines (if applicable) and list any hazardous materials disposed. *Yes I think the tank was decommissioned at demolition.*

11. Does the property discharge waste water into a storm water sewer system or a sanitary sewer system onto or adjacent to the property? If so, please describe location, piping flow, quantity discharged, and water quality. *No*

12. Do you have knowledge of the following with respect to the property? Circle and explain all that apply.

a. Environmental clean-up, ongoing or pending. *No*

b. Environmental liens *No*

c. Governmental notifications regarding any possible past or present violations of environmental laws. *No*

d. Past, threatened, pending lawsuits or administrative proceedings relevant to a release of a hazardous substance or petroleum product, in, on, or from the property. *No*

e. Prior environmental assessment that indicated the presence of hazardous substances, petroleum hydrocarbons, contaminants, or recommended further assessment. *NO*

f. Deed Restrictions *NO*

g. Citizen complaints regarding activities onsite

Homeless encampments

AGRICULTURAL SITES:

NA

13. What crops have been grown onsite, currently and in the past?

CROP	DATE	LOCATION

If crops are present or have been grown, please answer questions 14 through 16 below:

14. Have pesticides been applied to fields or other portions of the site? If so, please answer the following questions:

a. List the names of pesticides (includes herbicides, fungicides, insecticides, rodenticide) used and dates applied.

PESTICIDE AND BRAND NAME	DATE	CROP OR ANIMAL USE

b. Have you been notified of any violation of environmental law with respect to application or storage of pesticides?

c. Location of pesticide mixing areas, if any (past or present)?

d. Method of pesticide application?

15. Have fertilizers been applied to the site? What type and method of application?

16. Are there any buried pipelines for irrigation or other purposes onsite? If so, what materials is the piping constructed of? Is there asbestos-containing material, PVC, etc.? Describe the location of buried piping.

17. Does the purchase price being paid for this property reasonably reflect the fair market value of the property?

☐ No ☐ Yes (Describe or attach information)

USER QUESTIONNAIRE

Site Name: Vacant Property – Two Parcels; 30 Acres Combined
West of West Valley Highway East

Completed By: _____ **Date:** _____

Signature: _____

The following are a series of questions from ASTM 1527-05 that must be answered in order to qualify for LLPs under CERCLA. Please provide an answer to each question or attach pertinent information and identify a number for each attachment.

(1.) Are you aware of any environmental cleanup liens against the *property* that are filed or recorded under federal, tribal, state or local law?

☐ No ☐ Yes (Describe or attach information) Attachment No. _____

(2.) Are you aware of any Activity and Use Limitations (AULs), such as engineering controls (e.g. engineered caps, foundations, liners, treatment methods, etc. in use to prevent contamination from migrating to surrounding areas), land use restrictions or institutional controls (e.g. administrative measures restricting groundwater use, construction, or property use) that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?

☐ No ☐ Yes (Describe or attach information) Attachment No. _____

(3.) Do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

☐ No ☐ Yes (Describe or attach information) Attachment No. _____

(4.) Does the purchase price being paid for this property reasonably reflect the fair market value of the property?

☐ No ☐ Yes (Describe or attach information) Attachment No. _____

If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the *property*?

☐ No ☐ Yes (Describe or attach information) Attachment No. _____
_____ n/a _____

(5.) Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as User,

(a.) Do you know the past uses of the property? ☐ No ☐ Yes (Describe or attach information) Attachment No. _____

(b.) Do you know of specific chemicals that are present or once were present at the property? ☐ No ☐ Yes (Describe or attach information) Attachment No. _____

(c.) Do you know of spills or other chemical releases that have taken place at the property? ☐ No ☐ Yes (Describe or attach information) Attachment No. _____

(d.) Do you know of any environmental cleanups that have taken place at the property?
☐ No ☐ Yes (Describe or attach information) Attachment No. _____

(6.) As the User of the ESA, based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of contamination at the property?

☐ No ☐ Yes (Describe or attach information)

Attachment No. _____

02/26/19

Site Name:

City of Edgewood - 30 Acre Pa
Not Reported
Puyallup, WA 98372
EDR Inquiry # 5573347.3

Client Name:

Kleinfelder, Inc.
849 West Levoe Drive
Taylorsville, UT 84123
Contact: Kerry Ruebelmann

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Kleinfelder, Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

City Of Edgewood Council Agenda Summary Sheet

SUBJECT: Surface Water Utility Rate Update		Agenda Item #:		2E	
		For Agenda of:		October 1, 2019	
		Prepared by:		Jeremy Metzler	
ATTACHMENTS (list): ☒ DRAFT Ordinance 19-0xxx					
Approval of Materials:					
Mayor, Daryl Eidinger	☐	Expenditure Required:	N/A		
Asst. City Administrator, Dave Gray	☐	Amount Budgeted:	N/A		
Interim City Attorney, Ann Marie J. Soto	☐	Appropriation Required:	N/A		
City Clerk/HR Director, Rachel Pitzel	☐	Timeline: Public Hearing – Oct. 8, 2019 Regular Council Meeting Action – Oct. 22, 2019			
Community & Economic Development Director, Darren Groth	☐				
Public Works, Jeremy Metzler	☒				
Police Chief, Micah Lundborg	☐				
Fiscal Note/Consideration: An analysis performed in 2017 found that the surface water utility was experiencing a fee-to-expense deficit of nearly \$40,000 annually. The 2018 rate increase of 20% corrected this deficit, but a gap remains in capital improvement funding. Increasing rates as recommended in the 2018 Surface Water Management Plan update will fund critical capital improvements.					
SUMMARY STATEMENT: The Edgewood City Council establishes storm water rates charged for various land use classifications according to factors set forth in RCW 35.67.020(2) and (3), which are then adopted in the Edgewood Municipal Code. The City is required to impose uniform charges for the same class of customers or service and facilities furnished [RCW 35.67.020(2)]. In classifying customers served or service and facilities furnished by the storm water utility, the City may consider <i>“the difference in cost of maintenance, operation, repair and replacement of various parts of the system,”</i> and <i>“any other matters which present a reasonable difference as a ground for distinction.”</i> Id. As discussed in previous years, our Municipal Stormwater Permit requires annual inspection and maintenance work which we satisfy through our Interlocal Agreement with Pierce County Public Works. The costs for this service have increased from \$25,000 in 2013 to over \$400,000 in 2015, and totaled more than \$630,000 in 2017. This increase is due to additional permit requirements enacted in 2014 coupled with recent infrastructure improvements along the Meridian Avenue corridor. Here is a table comparing operating expenditures to revenues in recent years (<i>excluding capital expenditures</i>):					
	2015	2016	2017*	2018*	2019 (est)
Operating Expenditures	\$834,626	\$570,852	\$1,091,513	\$931,566	\$1,083,953
Revenues	\$708,068	\$659,084	\$723,836	\$937,735	\$1,225,000
Net Revenue / (Deficit)	(\$126,558)	\$88,232	(\$367,677)	\$6,169	\$141,047
<i>*Note: 2017 & 2018 Operating Expenditures also exclude consultant fees for the Comprehensive SWMP Update</i>					
Revenues had been relatively steady from 2009 to 2017 due to limited growth and development, generally coming in between \$650,000 and \$720,000, annually. Action was taken by Council each of the last two years to close the operating budget gap, increasing revenues to \$937,735 in 2018 and an estimated \$1.225M this year.					

Upon review of existing rates, anticipated operating budget, and proposed capital projects identified as “critical” during preparation of the 2018 SWMP Update, the City’s consultant recommended a 40% rate increase for FY 2019 and 15% rate increase for FY 2020. Council passed Ordinance 18-0528 last year, increasing rates by 20% in FY 2019. To make up the difference, staff recommends a 35% increase for FY 2020, and this rate is reflected in the attached ordinance. In prior discussions, Council has expressed concern regarding the impact this significant of a rate increase may have on the rate payers. In light of this concern, staff offers the following table demonstrating alternative rate increases and the associated impacts on the residential rate:

Proposed Rate Increase	10%	20%	30%	35%
Projected Revenue Increase	\$120,000	\$240,000	\$360,000	\$420,000
Proposed Annual Residential Rate	\$209.88	\$228.96	\$248.04	\$257.58
<i>Increase from Current Rate</i>	<i>\$19.08/yr</i>	<i>\$38.16/yr</i>	<i>\$57.24/yr</i>	<i>\$66.78/yr</i>

To further assist Council in evaluating a proposed rate increase, below are the surface water capital projects currently identified for funding in the working draft of the 2020 – 2025 Capital Improvement Plan:

Project \ Year	2020	2021	2022	2023	2024	2025
Spot Improvement Program	\$100,000	\$100,000	\$100,000	\$100,000	\$100,000	\$100,000
Mortenson Farm Regional Stormwater Improvements	\$50,000	\$700,000	\$500,000	-	-	-
Jovita Creek Regional Improvement Feasibility	-	-	-	\$200,000	\$200,000	\$180,000
Edgewood Pothole Feasibility Assessment	-	-	\$300,000	\$100,000	-	-
108 th Ave E / 36 th St E Flooding	\$50,000	\$900,000	\$175,000	-	-	-
SWMP Updates	\$25,000	\$25,000	\$25,000	\$25,000	\$25,000	\$25,000
25 th St E Drainage Improvements	-	-	-	\$235,000	-	-
Lake Chalet Flood Reduction (Pump Station)	\$530,000	-	-	-	-	-
24 th St E / 112 th Ave E Seasonal Ponding	\$170,000	-	-	-	-	-
108 th Ave E Neighborhood (8 th to 16 th)	-	\$40,000	\$270,000	\$65,000	-	-
Jovita Blvd Rehabilitation	-	-	-	\$55,000	\$345,000	\$180,000
Edgewood Pothole Flood Reduction Plan / Analysis	-	-	-	\$170,000	-	-
56 th St E / Sumner Heights Drainage Improvements	\$450,000	-	-	-	-	-
Monta Vista Drive Drainage	\$200,000	-	-	-	-	-
Annual Totals	\$1,575,000	\$1,765,000	\$1,370,000	\$950,000	\$670,000	\$485,000

Taking into consideration these capital projects--assuming surface water utility rates are needed to fund a significant portion of them--and a 35% rate increase for FY 2020, 5% in FY 2021, and 2.5% each year thereafter, the following table extrapolates the anticipated Surface Water Fund balance through the program horizon:

	2019	2020	2021	2022	2023	2024	2025
Revenues	\$1,225,000	\$1,645,000	\$1,727,250	\$1,770,431	\$1,814,692	\$1,860,059	\$1,906,560
Expenditures	\$1,148,953	\$2,043,133	\$2,223,777	\$1,790,490	\$1,848,305	\$1,437,254	\$1,477,372
Ending Balance	\$113,233	(\$284,899)	(\$781,426)	(\$801,484)	(\$835,097)	(\$412,292)	\$16,897

As demonstrated above, we anticipate debt funding through 2025, even with the recommended rate increases.

Finally, any storm water rate increase will be in effect starting January 1, 2020. If no action is taken to increase rates by October 22, 2019, it is unlikely that Pierce County will be able to implement a rate increase until FY 2021.

COUNCIL COMMITTEE REVIEW AND RECOMMENDATION: N/A

RECOMMENDED ACTION: Discuss the recommended rate increase, discuss any concerns, provide direction to staff on revisions if needed, and hold a Public Hearing at the next Regular Council Meeting.

ALTERNATIVES TO RECOMMENDED ACTION: Forward to Study Session for further review

ORDINANCE NO. 19-0xxx

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF EDGEWOOD, WASHINGTON, ADJUSTING THE STORM DRAINAGE AND SURFACE WATER UTILITY ANNUAL SERVICE CHARGE FOR ALL CLASSIFICATIONS OF SERVICE CONSISTENT WITH THE SURFACE WATER MANAGEMENT PLAN, IN ORDER TO IMPLEMENT THE CAPITAL IMPROVEMENT PLAN BUDGET FOR THE UTILITY, TO BE EFFECTIVE AS OF JANUARY 1, 2020, AMENDING SECTION 13.10.070 OF THE EDGEWOOD MUNICIPAL CODE; PROVIDING FOR SEVERABILITY; AND ESTABLISHING AN EFFECTIVE DATE

WHEREAS, the City of Edgewood has “full jurisdiction and authority to manage, regulate and control” its storm water utility (RCW 35.67.020(1)); and

WHEREAS, the City has the authority to fix, alter, regulate and control the rates and charges associated with the storm water utility, which charges must be uniform for the same class of customers of service and facilities furnished, taking into account the factors identified in state law (RCW 35.67.020(2)); and

WHEREAS, the City has established a storm drainage and surface water management utility, and has codified regulations pertaining thereto at Chapter 13.10 of the Edgewood Municipal Code (EMC); and

WHEREAS, Pierce County collects storm water charges for the City, as directed and authorized by the Mayor through an established interlocal agreement, and designates each property by one of the eight (8) categories defined in EMC 13.10.070; and

WHEREAS, the City is updating its capital improvement and comprehensive plans for the maintenance, repair, replacement, and new construction of storm water projects which are paid for by the revenue from storm water charges; and

WHEREAS, in review of said plan updates, the City has determined additional funding is necessary to support the proposed capital improvement budget for its surface water management utility; and

WHEREAS, the City desires to adjust the annual storm drainage and surface water service charge to fund said capital improvement budget; and

WHEREAS, the City’s SEPA Responsible Official has determined that this procedural action is categorically exempt from SEPA threshold determination and EIS requirements pursuant to WAC 197-11-800(19); and

WHEREAS, on October 1 and October 15, 2019, the City Council considered this ordinance during study sessions; and

WHEREAS, on October 8, 2019, the City Council held a first reading of this ordinance during its regular City Council meeting; and

WHEREAS, on October 8, 2019, the City Council held a public hearing on this ordinance, after proper notice was sent out to the public; and

WHEREAS, on October 22, 2018, the City Council considered the adoption of this ordinance during a second reading, which was held during a regular City Council meeting;

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF EDGEWOOD, WASHINGTON, DO ORDAIN AS FOLLOWS:

Section 1. Findings. The recitals above are hereby adopted as legislative findings in support of this ordinance. The City Council further adopts by reference the agenda bill dated October 22, 2019 as additional findings.

Section 2. EMC Subsection 13.10.070(A), amended. Subsection 13.10.070(A) of the Edgewood Municipal Code is hereby amended to read as follows:

An annual service charge schedule is hereby established for all areas of the city.

A. Annual service charges for all parcels within the city are as follows:

Classification	Rate
Residential	\$190.80 <u>\$257.58</u>
Duplex	\$246.12 <u>\$332.26</u>
Multifamily (per sq. ft. impervious area)	\$0.07227 <u>\$0.097565</u>
Mobile Home Site	\$104.94 <u>\$141.67</u>
Vacant / Undeveloped	\$48.00 <u>\$64.80</u>
State, County & Federal Public Highways (per sq. ft. impervious area)	\$0.02168 <u>\$0.029268</u>
All Others (per sq. ft. impervious area)	\$0.07227 <u>\$0.097565</u>

Section 3. EMC Subsection 13.10.070(D), amended. Subsection 13.10.070(D) of the Edgewood Municipal Code is hereby amended to read as follows:

D. The annual service charge, in addition to any applicable Utility Tax pursuant to EMC 5.08.030 E, shall be calculated and collected as described in PCC 11.02.050(E), as adopted by Pierce County Ordinance 2016-72s.

Section 4. Rates Effective. The rates described herein shall take effect and be in full force for fees collected beginning January 1, 2020.

Section 5. Severability. Should any section, paragraph, sentence, clause or phrase of this Code, or its application to any person or circumstance, be declared unconstitutional or otherwise invalid for any reason or should any portion of this Code be pre-empted by state or federal law or regulation, such decision or preemption shall not affect the validity of the remaining portions of this Code or its application to other persons or circumstances.

Section 6. Effective Date. A summary of this Ordinance consisting of its title shall be published in the official newspaper of the City, and shall take effect and be in full force five (5) days after the date of publication.

ADOPTED BY THE CITY COUNCIL ON THE 22ND DAY OF OCTOBER, 2019.

Daryl Eiding, Mayor

ATTEST:

Rachel Pitzel, City Clerk

City Of Edgewood Council Agenda Summary Sheet

SUBJECT: Comprehensive Plan Transportation Element		Agenda Item #:		2F
		For Agenda of:		October 1, 2019
		Prepared by:		Darren Groth
ATTACHMENTS (list): ☒ None				
Approval of Materials:				
Mayor, Daryl Eiding	☐	Expenditure Required:	\$0	
Asst. City Administrator, Dave Gray	☐	Amount Budgeted:	\$0	
Interim City Attorney, Ann Marie J. Soto	☐	Appropriation Required:	\$0	
City Clerk, Rachel Pitzel	☐	Timeline: Study Session Discussion- 10/01/19		
Community Development Director, Darren Groth	☒			
Public Works, Jeremy Metzler	☐			
Police Chief, Micah Lundborg	☐			
Fiscal Note/Consideration: N/A				
SUMMARY STATEMENT: City staff would like to propose a review of several elements of the Comprehensive Plan's Transportation Element. This discussion item is proposed to start the dialogue with City Council regarding the needs and vision of potential Comprehensive Plan amendments. The first would be to make the needed change to Figure 9 – Functional Classification System (p. 130) to include the Railroad Frontage Road identified in Figure 11 – Long-Term Transportation Projects (p. 133). This project may need classification review to determine whether it will be planned as a local, collector, or arterial roadway; however, adding this roadway to the Figure 9 map is vital for future planning and development. In addition to this needed change, other Transportation Elements that could be revised include: additional language regarding connectivity and the identification of potential new roadways in, around, or through Edgewood.				
RECOMMENDED ACTION: Hold a discussion and provide staff guidance regarding the Comprehensive Plan's Transportation Element.				

City Of Edgewood Council Agenda Summary Sheet

SUBJECT: Salary Commission Meeting Date Revision	Agenda Item #:		2G
	For Agenda of:		October 1, 2019
	Prepared by:		Rachel Pitzel
ATTACHMENTS (list): ☒ Draft Ordinance			
Approval of Materials:			
Mayor, Daryl Eiding	☐	Expenditure Required:	<u>\$0</u>

City Clerk/HR Director, Rachel Pitzel	☒		
Community & Economic Development Director, Darren Groth	☐		
Public Works, Jeremy Metzler	☐		
Police Chief, Micah Lundborg	☐		
Fiscal Note/Consideration: N/A			
SUMMARY STATEMENT: On July 16, 2016, Council adopted Ordinance No. 16-0470 establishing a Salary Commission. Originally, when discussed and then later adopted it was determined the commission would meet annually in May. It is difficult to provide the Salary Commission with up-to-date comparable salaries to review during the month of May, as AWC does not publish their Salary Comparable Study until the end of July of each year. Moving the annual meeting date to a date in the month of August will allow staff to provide more accurate and comparable data for the Salary Commission to review and make their determinations and recommendations.			
COUNCIL COMMITTEE REVIEW AND RECOMMENDATION: Salary Commission recommendation from the August 29, 2019 meeting.			
RECOMMENDED ACTION: Authorize the draft ordinance to be presented at the next regular council meeting for action.			
ALTERNATIVES TO RECOMMENDED ACTION: 1) Move to the next available council meeting for action 2) Forward to Study Session for further review			

ORDINANCE NO. 19-0XXX

**AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF
EDGEWOOD, PIERCE COUNTY, WASHINGTON,
AMENDING SECTION 2.10.050 OF THE EDGEWOOD
MUNICIPAL CODE RELATING TO THE SALARY
COMMISSION MEETING DATE; PROVIDING FOR
SEVERABILITY; AND ESTABLISHING AN EFFECTIVE DATE**

WHEREAS, on July 26, 2016, the City Council adopted Ordinance No. 16-0470, establishing a Salary Commission pursuant to RCW 35.21.015, which authorizes cities to establish, by ordinance, an independent salary commission in order to set the salaries of local elected officials, subject to certain terms and conditions; and

WHEREAS, Subsection 2.10.050(E)(3) of the Edgewood Municipal Code provides that the Salary Commission “shall meet no less than one time per year, during the month of May”; and

WHEREAS, the Salary Commission would like to meet later in the year to coincide with the AWC Salary Comparable study that is published in July of each year;

NOW THEREFORE THE CITY COUNCIL OF THE CITY OF EDGEWOOD, WASHINGTON, DO ORDAIN AS FOLLOWS:

Section 1. EMC Subsection 2.10.050(E)(3), Amended. Subsection 2.10.050(E)(3) of the Edgewood Municipal Code is hereby amended as set forth in Exhibit A, attached hereto and incorporated herein by this reference as if set forth in full.

Section 2. Severability. Should any section, paragraph, sentence, clause, or phrase of this ordinance, or its application to any person or circumstance, be declared unconstitutional or otherwise invalid for any reason, or should any portion of this ordinance be preempted by state or federal law or regulation, such decision or preemption shall not affect the validity of the remaining portions of this ordinance or its application to other persons or circumstances.

Section 3. Effective Date. A summary of this ordinance consisting of its title shall be published in the official newspaper of the City, and shall take effect and be in full force five (5) days after the date of publication.

**ADOPTED BY THE CITY COUNCIL OF THE CITY OF EDGEWOOD
THIS XTH DAY OF AUGUST, 2019**

Mayor Daryl Eiding

ATTEST/AUTHENTICATED:

Rachel Pitzel, CMC
City Clerk

APPROVED AS TO FORM:

Ann Marie J. Soto
Interim City Attorney

Date of Publication:
Effective Date:

Exhibit A

2.10.050 Salary Commission

There is created and established an independent salary commission.

A. Purpose, function and construction. The salary commission shall review and establish the salaries of the mayor and the councilpersons and shall exercise the powers and perform the duties set forth by RCW 35.21.015, as now existing or hereafter amended, and this section. The provisions of this section shall be construed in accordance with RCW 35.21.015.

B. Membership, appointment, compensation and term.

1. The commission shall consist of five members, to be appointed by the mayor with the approval of the city council.

2. A member of the commission shall serve for a three-year term without compensation, and shall be a resident of the city. Initial terms shall be staggered with two members appointed for terms beginning upon their appointment in August and ending December 31, 2017; two members appointed for terms beginning upon their appointment and ending December 31, 2018; and one member appointed for a term beginning upon his or her appointment and ending December 31, 2019.

3. No member of the commission shall be appointed to more than two terms, whether consecutive or otherwise.

4. A member of the commission shall not be an officer, official, or employee of the city or an immediate family member of an officer, official, or employee of the city. For purposes of this section, "immediate family member" means the parents, spouse, siblings, children, or dependent relatives of an officer, official, or employee of the city, whether or not living in the household of the officer, official, or employee.

C. Vacancies. In the event of a vacancy in the office of commissioner, the mayor shall appoint, subject to approval of the city council, a person to serve the unexpired portion of the vacant position's term.

D. Removal. A member of the commission shall only be removed from office for cause of incapacity, incompetence, neglect of duty, or malfeasance in office, or for a disqualifying change of residence.

E. Duties; Adjustment of Salaries.

1. The commission shall review the salaries paid by the city to the mayor and city council. If after such review the commission determines that the salary paid to the mayor or city council should be increased or decreased, the commission shall file a written salary schedule with the city clerk indicating the increase or decrease in salary.

2. The commission shall convene and complete its first review of the salaries paid to the mayor and city council within 90 days of the appointment of the commission. Should the commission determine that the salary paid to the mayor or city council should be increased or decreased, the commission shall file its initial schedule of salaries for the mayor and city council with the city clerk no later than the 91st day following the appointment of the commission.

3. For subsequent years, the commission shall meet no less than one time per year, with at

least one meeting occurring during the month of ~~May~~ August.

4. All meetings of the commission shall be governed by the Open Public Meetings Act and shall be open to the public except as otherwise allowed under that Act. Members of the public shall have an opportunity to comment or submit comments in writing prior to a commission vote to increase or decrease salaries.

5. Any increase or decrease in salary shall become effective and incorporated into the city budget without further action of the city council or the commission.

6. Salary increases established by the commission shall be effective as to the mayor and all council members, regardless of their terms of office.

7. Salary decreases established by the commission shall not be effective as to an incumbent mayor and council members until the commencement of their next term of office.

8. Any adjustment of salary by the commission shall supersede any city ordinance related to the budget or fixing of salaries, but only to the extent of a conflict.

9. Existing salaries for the mayor and council members established by city ordinance and/or city budget prior to the effective date of this section shall remain in effect unless and until changed in accordance with the provisions of this chapter. The terms and conditions of the commission's adopted salary schedule will remain in effect until amended under the terms and conditions of a new salary schedule filed in accordance with this chapter.

10. The commission shall adopt rules of procedure to govern its meetings. Such rules shall make provision for the taking of minutes and keeping of commission records, and shall provide for the election of such officers as are deemed necessary by the commission for the conduct of its business.

F. Referendum Measures.

1. Salary increases and decreases shall be subject to referendum petition by the people of the city in the same manner as a city ordinance upon filing of such petition with the city clerk within thirty days after filing of the salary schedule. In the event of the filing of a valid referendum petition, the salary increase or decrease shall not go into effect until approved by vote of the people.

2. Referendum measures under this section shall be submitted to the voters of the city at the next following general or municipal election occurring thirty days or more after the petition is filed, and shall be otherwise governed by the provisions of the state Constitution or laws generally applicable to referendum measures.

G. Employee Compensation Recommendations. Separate from and independent of the other provisions of this section, the city council may from time to time direct the commission to review the salary and/or benefits provided to city employees and to make recommendations to the council regarding the same. Any such recommendations shall be advisory only, shall not be subject to referendum, and shall not bind the council in any manner whatsoever.

City Of Edgewood Council Agenda Summary Sheet

SUBJECT: Snow Plow Purchase	Agenda Item #:		2H
	For Agenda of:		October 1, 2019
	Prepared by:		Dave Gray
ATTACHMENTS (list): ☒ Purchase Order2019004 ☒ ProShop Invoice 31016 ☒ ProShop Quote 37726			
Approval of Materials:			
Mayor, Daryl Eidinger	☒	Expenditure Required:	\$15,534.69
Asst. City Administrator, Dave Gray	☒	Amount Budgeted:	\$14985.19
Interim City Attorney, Ann Marie J. Soto	☐	Timeline: October 1, 2019 For Council Review October 08, 2019 Consent Agenda	
City Clerk/HR Director, Rachel Pitzel	☐		
Community & Economic Development Director, Darren Groth	☐		
Public Works, Jeremy Metzler	☒		
Police Chief, Micah Lundborg	☐		
Fiscal Note/Consideration: On February 22, 2019 The Pro Shop provided the COE Public Works Superintendent a Quote to place a snow plow on the front of our existing Dump Truck in the sum of \$13,635.30. After negotiation as to the specifics, a purchase order was executed by the Mayor in the Sum of \$14,985.19. Subsequent to the completion of the installation, the Superintendent authorized an additional expenditure of \$550.00 to install a 9-foot blade, which is the same as Pierce County, an upgrade to the 8-foot blade quoted. While authorized to make a change of this type, the Superintendent did not realize the expenditure in total crossed the threshold of expenditure requiring Council Approval. Options to Council acceptance of the increase and authorizing the expenditure are to return the blade to the ProShop and replace it with the original 8 foot blade.			
SUMMARY STATEMENT: This request does show a failure of communication. We try to empower our folks to make good decisions every day, and feel keeping our snow plow standard with Pierce County spec is a good idea and the cost of 500 dollars a good investment. It keeps the snow out of the pushing truck track for a better safer work product. Our level of spending is low relative to the current RCW statute regulating spending, and will be higher if the Council approves the soon to be completed purchasing policy with the revised spending levels at the current statutory levels (our policy was produced in 1996). A final note, our internal controls caught that the spending level of the invoice exceeded the policy regulated authority and required oversight by Council before the invoice was submitted for payment.			
RECOMMENDED ACTION: Council asks the Mayor to add the Purchase Order to the Consent Agenda for Council Action at the October 8 th Regular Council Meeting.			
ALTERNATIVES TO RECOMMENDED ACTION: 1) Forward to Study Session for further review 2) Instruct the Mayor to complete the transaction below the Council approval level of \$15,000.00
